Minute No. 591
Report - Executive Policy Committee - September 24, 2008

Item No. 1 Organizational Restructuring
E-File GL-5.6

COUNCIL DECISION:

Council concurred in the recommendation of the Executive Policy Committee and adopted the following:

1. That the Chief Administrative Officer be delegated authority to make any changes to the organizational structure as it relates to the Winnipeg Public Service.

2. That amendments to City Organization By-Law No. 7100/97 be approved to reflect changes as outlined in Appendix 3 to the report of the Chief Administrative Officer dated September 19, 2008.

3. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

Report - Executive Policy Committee - September 24, 2008

DECISION MAKING HISTORY:

Moved by His Worship Mayor Katz,

That the recommendation of the Executive Policy Committee be adopted

The motion for adoption of the item was put.

Councillor Smith called for the yeas and nays, which were as follows:

Yea: His Worship Mayor Katz, Councillors Browaty, Clement, Fielding, Gerbasi, Nordman, O'Shaughnessy, Pagtakhan, Smith, Swandel, Thomas, Vandal, Wyatt and Lazarenko. 14

Nay: Councillor Steeves. 1

and the motion for adoption of the item was declared carried.

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On September 24, 2008, the Executive Policy Committee concurred in the recommendation of the Winnipeg Public Service and submitted the matter to Council.

ADMINISTRATIVE REPORT

RE: Organizational Restructuring

FOR SUBMISSION TO: Executive Policy Committee

ORIGINAL REPORT SIGNED BY: Chief Administrative Officer

REPORT DATE: September 19, 2008

RECOMMENDATION(s):

1. That the CAO be delegated authority to make any changes to the organizational structure as it relates to the Public Service.
2. That Council approve amendments to the Organizational By-Law No. 7100/97 to reflect these changes as set out in Appendix 3.
3. That the proper officers of the City do all things necessary to implement the above recommendations.

REPORT SUMMARY

Key Issues:

- Section 88 of the City of Winnipeg Charter allows Council to establish and maintain the administrative structure for the City. The City of Winnipeg created City Organization By-Law No. 7100/97 setting out delegations approved by Council. No changes are contemplated to the City of Winnipeg Charter but revisions are recommended to the Organization By-law as set out in this report.
- The City retained Dr. Don DeGuerre, Concordia University, to facilitate a number of open systems theory design sessions using participative design techniques with affected staff to innovatively review the City's current organizational structure.
- Through this process and subsequent reviews by senior management, a new open systems design is being recommended that would reduce the number of reporting relationships directly to the CAO and cluster like services under three Deputy CAO's. The proposed structure streamlines processes, reduces duplication and departmental silos. No changes are planned for both the Winnipeg Police and Fire Paramedic Service which would continue to report to the CAO. Under this model, the City Clerk and Audit departments would report administratively to the CAO, however, their statutory reporting relationships would not change. Both the EPC Secretariat and CAO Secretariats would be eliminated and the positions and associated staff would be re-assigned to other areas within the organization. The Public Service has been keeping vacant positions open to accommodate this reallocation. Annualized savings of $1.5 million are budgeted starting in 2009.

Implications of the Recommendation(s):

General Implications:

☐ None

X For the organization overall and/or for other departments

☐ For the community and/or organizations external to the City

☐ Involves a multi-year contract

Comment(s):

The City organization by-law 7100/97 will require amendment to reflect the recommendations setout above. No changes are required to the City of Winnipeg Charter.

Policy Implications:

x No

Yes

Comment(s):

Regulatory Implications

☐ None

☐ Eliminates or reduces regulatory impact

X Proposes regulatory impact

Comment(s):

The City organization by-law 7100/97 will require amendment to reflect the recommendations setout above. No changes are required to the City of Winnipeg Charter.

Environmental Implications:

X No

☐ Yes

Comment(s):

Human Resources Implications:

☐ No

X Yes

Comment(s):

Staff within the EPC Secretariat and CAO Secretariat will be reassigned to other areas within the organization and reporting relationships will change through this process.

Financial Implications:

☐ Within approved current and/or capital budget

X Current and/or capital budget adjustment required
Comment(s):

The proposed restructuring will result in savings for the City. The Public Service estimates that savings of approximately $1.5 million annually may be realized.

REASON FOR THE REPORT:

Council approval is required for any changes proposed to the City Organization By-Law.

HISTORY:

Over the last number of years, the City has reviewed its organizational structure periodically to ensure that it reflects the direction of Council and provides the most efficient and effective means of delivering services to the citizens of Winnipeg.

In 1997, the City engaged George Cuff to review the City's organizational structure. This review led to the removal of the Board of Commissioners which was then replaced by the Chief Administrative Officer Model. At the same time changes were proposed to legislation, by-laws, Executive Policy Committee, standing committees, departments and senior management to reflect the new direction.

Since that time, there have been several reorganizations of lesser magnitude and scope to incorporate current management or political direction including the adoption of the Alternative Service Delivery model with respect to delivering services.

DISCUSSION:

1. Current Structure

The current organizational structure is provided as Appendix 1. It has been in place since 1997 with some minor amendments and modifications made over the ensuing years to reflect the direction of Council.

Issues with the current structure include duplication of effort, lack of clarity around roles and responsibilities, and "silo" behaviour of departments which prevents optimization of efficiencies.

2. Proposed Structure

General Overview

The recommendations that follow have been made with consideration to the overall perspective of facilitating efficiencies and effectiveness throughout the organization. The proposed organization structure streamlines senior management decision making and promotes integration of activity between business units. The model rationalizes administrative systems and allows the CAO to focus on strategy and the long-term requirements of the City. This organizational structure starts the movement to a flexible and agile management structure that allows the Public Service to not only be responsive to Council's needs but also sets the stage to be proactive in anticipating the future requirements of our community.

The proposed structure would see the elimination of both the CAO and EPC Secretariats. The proposed structure is provided as Appendix 2.

Utility Review

Under the direction of the CAO, a review is currently being undertaken by Deloitte's on a new utility governance model and strategic partnerships. It is expected that this review will be completed by the middle of September and result in significant changes relating to the Water & Waste utility. This report will have to be completed and agreed to by Council in a timely manner in order to meet the provincial requirements to upgrade our sewage treatment facilities. Similarly, this report will provide the platform for further research relating to a possible Transportation Authority. Both models will result in changes in operations with a view to providing cost-efficient service to the citizens of Winnipeg. Given the significance of these initiatives, a special office will be created to over-see the creation of the new Utilities. Thereafter further restructuring may be required depending on the progress of these initiatives.

EPC Secretariat and the CAO Secretariat

Under the new model both Secretariats would be eliminated and staff will be redeployed to other assignments with the Public Service or the Mayor's Office. 27 positions will be impacted. This change will improve the flow of reports to the City Clerk and the Mayors Office. In addition, the change will allow the City to transfer the significant operating knowledge residing with staff in both groups to operating departments where their experience is most needed.

Audit Department

Currently, Audit reports to the Audit Committee and to the Mayor and EPC. Reporting relationships vary between municipalities but in several cities, Audit reports to the CAO. For purposes of the reorganization, the Public Service is recommending that Audit report administratively to the CAO. The principal reason for this change is to reflect the increasing need to allocate resources to areas requiring additional administrative review and support. The City Auditor's statutory responsibilities would continue but the City Auditor would also receive instructions from the CAO in terms of service needs within the organization.

City Clerks Department

Most municipalities in Canada have the City Clerk report directly to the CAO or other administrative departments. The City Clerk will continue to have a statutory relationship to Council but will work with the CAO of the public service. As the structure evolves, the Clerk will play an important role between the public service and the members of Council to ensure continuity in the legislative decision-making process.

3. Implementation

Once approved by Council, the CAO will begin the process of advising all staff concerning revisions to the organizational structure. Many of the changes will be implemented immediately but others may take a further 6 months to complete. It is the intention of senior management to implement the recommendations in the report as soon as possible.

4. Summary

The following summary represents some of the benefits that will result from the proposed reorganization:

- Financial savings in the range of $1.5 million annually will be realized.
- The new structure will promote flexibility and agility in terms of management decision making at the City.
- It will result in better service responsiveness and reduce the constricting effect of service delivery in a silo environment.

Financial Impact Statement:

Project Name: Organizational Restructuring

Date: August 28, 2008 First Year of Program **2009**

	2009	2010	2011	2012	2013
