Site Description

Existing Land Use and Zoning

The approximately 8,900 square foot subject site is currently zoned 'R1-L' Single Family Residential and occupied by a 600 square foot pharmacy and a 2,100 square foot medical clinic within a converted residential dwelling. - DAV 689-79
  1. to permit the expansion of a non-conforming the medical clinic

  Approved

- DAV 330821/2003C
  1. for a period of time as determined by the Board of Adjustment to permit the establishment of a pharmacy use in conjunction with a non-conforming medical clinic
  2. to permit no additional parking instead of 4 additional spaces

  Approved with conditions

Description of the Proposed Development

The applicant wishes to rezone the subject site from 'R1-L' Single Family Residential to 'C1' Commercial to allow the existing pharmacy to remain. The medical clinic exists as a non-conforming use; the rezoning will make it conform to the Zoning By-law as well. Currently there is a residential unit on the second floor. At this point, there is no intent for any new construction to take place on the site.

Analysis

The rezoning of the subject site is being triggered by the expiration of a 'use variance' for the pharmacy approved in 2003. The medical clinic is a non-conforming use and is allowed to continue operating at this location.

Planning and Land Use Division supports this rezoning application. The division recommended the rejection of the original 'use variance' for the pharmacy use; our concern was that this use would have a negative impact on the immediate context. However, the Board of Adjustment approved the application for a 5-year period. Below is the wording from the associated Variance Order dated October 31, 2003:

1. *a pharmacy use in conjunction with an existing non-conforming medical clinic, **terminating January 1, 2009** or sooner should the building be destroyed or demolished;*
2. *no additional on site parking instead of 4 additional parking spaces.*

The Order included 4 conditions;

1. *That if any Variance granted by the Order is not established within two (2) years of the date thereof, the Order, in respect of that Variance, shall terminate.*
2. *That the pharmacy be restricted to a maximum floor area of 600 square feet (55.7 sq.m.).*
3. *That the retail trade at the pharmacy be restricted to pharmaceutical products and merchandise related to patient care.*
4. *That external signage identifying the pharmacy be restricted to an unlit facia sign on the north wall of the clinic measuring a maximum of 2 feet by 12 feet (0.6 m. by 3.7 m.)., subject to any necessary zoning approvals.*

Since that time it appears that the pharmacy has operated without any negative impacts on the neighbourhood and thus we are comfortable supporting its permanent establishment. The only blemish to that record was the previous owner's installation of additional signage on the site that was beyond the limits set by condition #4. The previous owner applied for a subsequent variance to allow the illegal signage to remain, however that variance was rejected and the extra signage was removed.

In terms of the medical clinic, it has operated at this location for at least 30 years, providing a convenient service to the surrounding community without being a detriment to the neighbourhood. There was some concern regarding the owner's site maintenance including pruning debris, yard care and drainage by a local resident, the complainant was directed to the Zoning Field Officer for the area.

The combined parking requirement for the pharmacy, the medical clinic and the residence upstairs is 4 parking stalls. The subject site has an existing driveway that allows for limited drop-off and pick-up, keeping that traffic off of Assiniboine Crescent. The applicant has indicated that they have a shared parking agreement with the church next door to the east, (2400 Portage Avenue) providing a convenient place to park staff and visiting patients. It should be noted that the owners maintain that much of the clientele is walk-up from the local neighbourhood further reducing the parking / drop-off / pick-up needs.

The Planning and Land Use Division will be recommending a Zoning Agreement be included with this rezoning, reattaching the previous conditions placed on the property as well as further limiting the types of uses allowed to establish. This will allow the business to continue operations as it has for the past years providing a convenient amenity for the local community.

Recommendation

The Planning and Land Use Division recommend approval for the following reasons:

- The existing uses have had no detrimental impact on the surrounding context,
- The conditions recommended in the proposed Zoning Agreement will ensure the operation of the site continues at the same scale and intensity,
- The uses provide an important amenity and convenience for the local neighbourhood.

Recommended Conditions of Approval

1. That The Winnipeg Zoning By-law No. 200/06 be amended by rezoning the subject land as shown on Schedule "A" for File DAZ 217/2008 dated June 17, 2008 to a 'C1' Commercial District subject to the following:

2. That a ten percent (10%) dedication be made by a payment of a sum of money to the City in lieu of the requirement for land dedication based on the increase in market value of the land.
