Note: The wording in bold and italics denotes amendments made by the Community Committee.

The East Kildonan-Transcona Community Committee provided the following supporting reasons for its recommendation:

1. The proposal is consistent with development in the area.

2. Concordia Avenue is designated as an arterial street.

3. This is a transitional development between arterial and lower density residential, which backs onto the CPR main line, and is therefore appropriate.

4. There is a need for rental and condominium units in the area.

5. This will address some outstanding issues with regard to existing development in the area which has already been approved.

Subject: **Rezone land to allow a higher density dwelling.**

Location:

Applicant: **Qualico Development – Glenn Hallderson**
Owner: **Qualico Development**

Recommendation: *Approved*

Report Summary:

- The proposed rezoning will allow 283 units where as the existing zoning will allow 181 dwelling units.
- Previous Development Agreement provides for full range of municipal services.
- The vacant lands directly to the east in Bridgewater Estates has been zoned "RMF-M"

Site Description

The subject property is approximately **5.2 acres (226,510.2 square feet)** located east of Lagimodiere Blvd at the southeast corner of Peguis Street and Concordia Avenue East in the Harbourview Phase II subdivision in the Grassie neighbourhood of the Transcona Ward. The site is zoned **"RMF-S" Residential Multi-Family District**. Adjacent lands include vacant land to the west zoned "C2".

Background

DASZ 50/04
Council approved Harbourview South Phase II, **DASZ 50/04**, on June 29, 2005. The applicant intends to construct **367 single family dwellings** and **40 multiple family dwellings**..

DASZ 30/05
Council approved Bridgewood Estates on February 21, 2007. The applicant is proposing to develop **single family residential lots**, a **4.3 acre park**, a **3.3 acre commercial site**, and **4.5 acres of multi-family lands** on 57.5 acres of land.

Description of the Proposed Development

The applicant intends to rezone the vacant lands from the current RMF-S to the RMF-L to allow for the construction of a larger multi-family dwelling.

Analysis

PLAN WINNIPEG
The proposed concept complies with Plan Winnipeg in that a residential rezoning is allowed in Neighbourhood Policy Areas.

SECONDARY PLANS
The lands fall within the Transcona West Area Structure Plan. This plan is currently proceeding to Council at the time of this Planner's Report. The TWASP indicates the subject lands have been designated 'Medium Density' for multiple family development.

ZONING

- **"RMF-M" Residential Multi-Family District - Medium** is intended to accommodate the development of multi-family units in neighbourhoods with medium to high residential densities. There is a front & rear yard requirement of 25 feet and the maximum building height is 60 feet. The minimum lot width is 25 feet and lot area 9,000 square feet (800 square feet per dwelling unit).

- **"RMF-S" Residential Multi-Family District - Small** is intended to accommodate the development of multi-family units in neighbourhoods with medium to high residential densities. There is a front & rear yard requirement of 25 feet and the maximum building height is 35 feet. The minimum lot width is 25 feet and lot area 9,000 square feet (1,250 square feet per dwelling unit).

- **"C2" Commercial Community District** is intended to accommodate more intensive commercial sites that do not have a local or neighbourhood orientation.

- The proposed rezoning will allow 283 units where as the existing zoning will allow 181 dwelling units.

COMPATIBILITY
The vacant lands directly to the east in Bridgewater Estates has been zoned "RMF-M"

TRANSPORTATION AND SITE ACCESS
Concordia Avenue East has been extended past Lagimodiere as a two lane major collector that is projected to be a four lane arterial. Peguis Street will be redeveloped to a major collector in the future as development continues in this area.

SERVICING
AG 50/04 requires the developer to install services in Concordia Avenue East and Peguis including a portland concrete sidewalk on both sides of the street.

SITE DESIGN ISSUES
No building or site plans were submitted.

PUBLIC INPUT
Qualico sent a letter out to the surrounding neighbourhood providing information on the proposed rezoning and the date/time of the Public Hearing.

LAND DEDICATION
Land Dedication for DASZ 50/04 was satisfied, however, the rezoning will require additional land dedication be paid as there is an increase in the market value of the property.

Recommendation

The Planning and Land-use Division supports the rezoning application.

A higher density building is an appropriate land-use adjacent to an arterial and major collector with nearby access to Lagimodiere Blvd.

Recommended Conditions of Approval

1. That The Winnipeg Zoning By-law No. 200/06 be amended by rezoning the subject land as shown on Schedule "A" for File DAZ 220/2008 dated June 25, 2008 to a "RMF-M" Residential Multi-Family District subject to the following:
