REASON FOR THE REPORT:

On March 24, 2004, Council adopted Item 1 of the Report of the Executive Policy Committee, dated March 10, 2004, delegating to the Chief Administrative Officer certain authorities of the Materials Management Policy. Under this policy, the Chief Administrative Officer is required to report quarterly on the assignment of consultants.

On August 11, 2004, Administrative Directive FM-002 was approved by the Chief Administrative Officer, re-confirming the previous direction that the Chief Administrative Officer is required to report quarterly to Council on the assignment of consultants.

DISCUSSION:

Consultant Assignments – January 1 to June 30, 2008

Attached is information obtained from each department relating to consulting assignments for the first and second quarters of 2008.

For purposes of preparing this report, consulting services are professional services provided directly to the City of Winnipeg. Professionals are defined in Directive FM-002 (Materials Management):

- Medical doctors, dentists, nurses, pharmacists, veterinarians, engineers, land surveyors, architects, accountants, lawyers and notaries (AIT* Professionals) (*Agreement on Internal Trade).

- Information technology consultants, communications consultants, management consultants, training consultants, accredited real estate appraisers, agrologists, dietitians, home economists, interior designers, occupational therapists, optometrists, physiotherapists, psychiatric nurses, psychologists, trainers, speech and hearing therapists and landscape architects (non-AIT Professionals).

The above definition excludes service contracts (e.g. elevator service, public surveys).

With respect to the solicitation of competitive offers, Directive FM-002 dated June, 2007 requires the following with respect to the solicitation of competitive offers:

- When the estimated value of the Consultant Services does not exceed $100,000, single source negotiations are permitted.

- When the estimated value of the Consultant Services exceeds $100,000, the following shall apply:

    1) **AIT Professionals:**
        (a) Where the estimated value of the Consultant Service does not exceed $500,000, single source negotiations are permitted.
        (b) Where the estimated value of the Consultant Service exceeds $500,000 but does not exceed $2,000,000, proposals must be invited, by the department, from no less than three qualified firms or individuals, unless otherwise authorized by the Chief Administrative Officer.
        (c) Where the estimated value of the Consultant Service exceeds $2,000,000, a Solicitation of Competitive Offers must, unless otherwise authorized by the Chief Administrative Officer, be issued through Materials Management.

    2) **Non AIT Professionals:**
        (a) Where the estimated value of the Consultant Service exceeds $100,000, a Solicitation of Competitive Offers must, unless otherwise authorized by the Chief Administrative Officer, be issued through Materials Management.

Effective January 1, 2007, the Consultant Report reflects contract prices that contain applicable taxes.

A summary of consultant assignments retained by The City of Winnipeg for the period of January 1 to June 30, 2008 are as follows:

Extensive investigation, computer modelling and system redesign were required to mitigate this problem. Subsequently, lengthy and detailed system testing was undertaken to ensure proper operation, followed by retraining of operating staff on the revised system. Finally, a HAZOP of the system was conducted to confirm that appropriate redundancy and control systems were in place and build operator confidence before startup in May of 2006. Since May, 2006 there have been recurring, serious equipment failures while under warrantee which have required further time by the consultant to resolve. As a result, the system has still not met substantial performance criteria. This overexpenditure was approved by CFO October 2, 2007.

MFA advanced the work by one year which did not allow time to budget for the M&E works. It was agreed to split the work; Structural to MFA and M&E to the City. This resulted in the Cit having increased contract administration fees of $32,000. This scope change was approved by the CFO Oct 30/07
