Report

REASON FOR THE REPORT:

Council approval is required to enter into a contract for the provision of fire protection services outside the City limits.

HISTORY:

On March 22, 2000 Council directed the Administration to divest itself of contracts for the provision of fire protection services outside the City of Winnipeg except for fire protection services to Border Chemicals' property at 595 Gunn Road in the R.M. of Springfield. On January 24, 2003 the Chief Administrative Officer approved a formal agreement for fire protection services between the City of Winnipeg and Border Chemical Company Limited.

The City of Winnipeg entered into an agreement with Border Chemical to provide fire protection services to their facility located at 595 Gunn Road on January 1, 2003 for a term of 60 months. The existing formal agreement has lapsed, however, verbal agreement between the parties was made to extend the contract.

A draft agreement for a term of 60 months has been prepared and is attached. Both Border Chemical and City of Winnipeg Legal Services have reviewed the draft agreement.

DISCUSSION:

Due to the nature of the business conducted at the Border Chemical plant and its proximity to the City of Winnipeg boundary, Winnipeg Fire Paramedic Service resources would be utilized to mitigate any major incident on that property. The formal agreement allows the WFPS to be compensated for the provision of this service.

The standby rate for fire protection services, which was established by Council on May 29, 1991, represents full cost recovery.

The WFPS already provides emergency medical response to the Border Chemical property as it lies within the boundaries for ambulance service.
