COUNCIL:

On September 24, 2008, Council ruled automatic referral of the following motion to the Executive Policy Committee:

Moved by Councillor Smith,
Seconded by Councillor Gerbasi,

WHEREAS bottled water is many times more expensive than water from the tap, even though bottled water is just filtered municipal tap water;

AND WHEREAS plastic bottles release dangerous toxic chemicals and contaminants into the air and water contributing to environmental degradation when they are manufactured;

AND WHEREAS toxic contaminants such as arsenic, mercury and bromides have been found in independent, peer reviewed scientific studies of bottled water;

AND WHEREAS the bottled water industry suggests that their product is more pure and healthy than tap water, when tap water is tested more stringently by the Water and Waste Department (hundreds of tests a month) while bottled water is tested by the Canadian Food Inspection Agency once a year;

AND WHEREAS by continuing to allow the sale of bottled water at civic facilities we are telling Winnipeggers that tap water is an inferior product;

THEREFORE BE IT RESOLVED that we cease selling bottled water in city facilities.
