DECISION MAKING HISTORY:

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On January 16, 2009, the Executive Policy Committee concurred in the recommendation of the Winnipeg Public Service and submitted the matter to Council.

RE: Dental Services, Vision Care and Ambulance and Hospital Semi-Private Plans of the City of Winnipeg Employees

FOR SUBMISSION TO: EXECUTIVE POLICY COMMITTEE

ORIGINAL REPORT SIGNED BY: Director, Corporate Support Services

REPORT DATE: December 19, 2008

RECOMMENDATION(s):

1. That the trustee agreement established for the implementation and administration of the Dental Services and Vision Care Plans of the City of Winnipeg Employees be replaced by the Group Agreement #99045 for Supplemental Health Benefits (Dental Services, Vision Care and Ambulance and Hospital Semi-Private Plans) between United Health Services Corporation (Manitoba Blue Cross) and the City of Winnipeg (attached as Appendix "A").

2. That all authority to manage the agreement formerly granted to the trustees of the Dental Services and the Vision Care Plans be transferred to the Chief Administrative Officer of the City of Winnipeg.

Report Summary

Key Issues:

- A trust was created by Council in June 1980 to manage the provision of Dental Benefits as specified in the Dental Service Plans for Employees of the City of Winnipeg, as provided by United Health Services (Manitoba Blue Cross). Trustees appointed at the time were the City Treasurer, the Director of Personnel and the Medical Health Officer or their designates. Management of the City's Vision Care Plan was added nine years later. The list of appointed trustees had not been revised or updated since 1987, at which time the appointed Trustees included the Commissioner of Finance and City Treasurer, the Director of Personnel and the Deputy Medical Health Officer. Responsibilities assigned to the Trustees have been managed administratively since the City's restructuring resulting from the "Cuff Report" of 1997.
- Manitoba Blue Cross requests payment from the City on a monthly basis for all approved claims which are then paid from the trust account. A small float is constantly maintained in the trust account to cover these monthly payment requests. In addition to the float, the trust account is funded by monthly journal entries which are processed by Corporate Payroll to charge departments for their employees' claims and to credit the trust account. Separate Financial Statements are prepared annually on the trust.

- It is felt that a trust is no longer required to manage dental and vision claims made by employees covered by the supplemental health benefit plan. It is proposed that Corporate Finance will pay Manitoba Blue Cross through accounts payable from the General Revenue Bank account for approved claims and administration fees and the Department of Corporate Support Services will administer the terms of the plans and manage liaison with Manitoba Blue Cross. The elimination of the trust will significantly streamline the payment process reducing the paperwork and effort required to process these transactions.
- The inclusion of Ambulance and Hospital Semi-Private coverage as a benefit paid by the City was agreed to in collective bargaining beginning in 2002, and is included in this group agreement along with the two other employer-paid benefits (Dental and Vision).

Report

REASON FOR THE REPORT:

The approval of City Council is required to replace the trust established to administer the Dental Services and Vision Care Plans of the City of Winnipeg Employees with the Group Agreement #99045 for Supplemental Health Benefits (Dental Services, Vision Care and Ambulance and Hospital Semi-Private Plans) between United Health Services Corporation (Manitoba Blue Cross) and the City of Winnipeg.

HISTORY:

Since 1980 the City has maintained a trust fund to reimburse Manitoba Blue Cross for all claims made by City employees and approved under the terms of the plans.

On October 15, 1980, City Council approved a trust agreement, authorizing the appointment of the City Treasurer, the Medical Health Officer and the Director of Personnel, or their designates, as trustees of the Dental Services Plan for the City of Winnipeg Employees.

On June 23, 1987, Council appointed the Commissioner of Finance and City Treasurer, the Director of Personnel and the Deputy Medical Health Officer as trustees of the plans.

On June 9, 1989 City Council authorized the appointment of the same officers as trustees of the Vision Care Plan for the City of Winnipeg Employees. This list of trustees has not been updated since that time, and responsibilities assigned to the Trustees have been managed administratively since the City's restructuring resulting from the "Cuff Report" of 1997.

Beginning in 2002, the inclusion of Ambulance and Hospital Semi-Private coverage as a health benefit paid by the City of Winnipeg was agreed to in collective bargaining between the City and its various unions and associations.

DISCUSSION:

Trustees were appointed in 1980 to manage the Dental Services Plan for City of Winnipeg Employees with the Vision Care plan added in 1989. Responsibilities of the trustees included the following:

- ensure sufficient funds in the trust to adequately fund the plans,
- establish the plans and pay from the Trust Fund sums as may be required,

- appoint United Health Services (Manitoba Blue Cross), or any other corporation approved of by the Employer, to administer the Plans or any portion thereof,
- pay all proper and reasonable expenses, costs and fees incurred, and
- grant, or continue benefits in exceptional circumstances, to claimants who may not meet the full eligibility requirements as set out in the plans – in other words, act as an appeal body in cases where individual's claims have been refused.

Research into the establishment of the Trust did not reveal the reasons why the plan was originally set up as a Trust Agreement. Because the plans are managed as a trust, the financial requirements to administer the fund are somewhat cumbersome. The current monthly process for reimbursing Manitoba Blue Cross is as follows:

- Corporate Payroll delivers a Statement of Accounts for the dental and vision plans along with processed journal entries which credit the General Revenue Bank general ledger account and debits the departmental expense accounts according to their employees' claims.
- Within a day or two, Corporate Payroll advises Treasury via e-mail that Manitoba Blue Cross has requested payment, providing the amount of the payment to be made.
- Manitoba Blue Cross supplies monthly lists of claimant names to Corporate Payroll which are then separated and distributed to departments for audit purposes.
- Within a day, a copy of the e-mail is sent to Treasury from Corporate Payroll which has been signed as approved by Payroll.
- Within a day or two of receiving the approved request (depending on the availability of funds) Treasury prepares an account transfer (on-line via RBC Express) based on the amount of the credit to the General Revenue Bank general ledger account in the journal entry provided – funds are transferred from the General Revenue account to the dental/vision account.
- At approximately the same time, Treasury prepares a wire payment payable to Manitoba Blue Cross based on the payment request amount indicated in the signed copy of the e-mail request.
- The account transfer is then approved and released (on-line via RBC Express) by either the Superintendent or the Supervisor of Treasury.
- The wire payment is approved and released (on-line via RBC Express) by both the Superintendent and the Supervisor of Treasury or their alternates.
- On an annual basis, separate Financial Statements are prepared for the trust by Corporate Payroll.

Eliminating the trust requirement would simplify the administration of the plans and the processing of Manitoba Blue Cross payments. The revised process would be as follows:

- Corporate Payroll would use the invoices received from Manitoba Blue Cross to process journal entries to charge departments for their employees' claims and to credit a corporate liability account.
- Corporate Payroll would prepare a Request for Payment and forward it to Accounts Payable for data entry. The payment will be processed through PeopleSoft, to be paid from the general Revenue Bank account charged to the corporate liability account.
- Payment will pay electronically via direct deposit once Accounts Payable enters the data.
- Corporate Payroll will perform regular balancing/auditing functions of the corporate liability account.
- Manitoba Blue Cross will continue to supply monthly claimant lists to Corporate Payroll for distribution to departments for audit purposes.
- The annual financial statements would no longer be required as the separate trust would not exist.

Beginning in 2002, as a result of collective bargaining between the City and its various unions and associations, Ambulance and Hospital Semi-Private coverage was included as a health benefit paid entirely by the City of Winnipeg. This plan is now included with the other employer-paid benefits (Dental Services and Vision Care Plans) in the attached Group Agreement #99045 for Supplemental Health Benefits between United Health Services Corporation (Manitoba Blue Cross) and the City of Winnipeg.

While Corporate Finance will continue to administer payments to Manitoba Blue Cross, charges to departments, distribution of audit spreadsheets, and will implement a new process to balance the accounts, the Human Resource Planning & Services Division of the Department of Corporate Support Services will administer the terms of the plans and manage liaison with Manitoba Blue Cross.
