Executive Policy Committee,

Having ***achieved great success*** in 2008 the Winnipeg Committee for Safety has proven itself invaluable to the City of Winnipeg and its citizens. Building off the momentum of our accomplishments of 2008, the WCFS looks toward 2009 with great anticipation.

Since 1999, the Winnipeg Committee for Safety (WCFS) has been supporting, assisting, stimulating and mobilizing the community on safety concerns. The WCFS model is unique in Canada, with representation from citizens, City departments, the Winnipeg Police Service, business, community organizations and other orders of government. People are the foundation of the Winnipeg Committee for Safety. ***Connections and partnerships*** are at the heart of our approach. Championing innovative ways of working together to address mutual concerns is what we do.

On November 3rd, 2008, the City of Winnipeg officially ***achieved Safe Community designation***, The WCFS brought together over 200 organizations & individuals (see APPENDIX I) to participate in this endeavour - the largest gathering in the history of the Safe Communities & World Health Organization process. Winnipeg has established itself as the leading and ***most innovative*** community in its approach. This designation and its process signify a ***significant enhancement*** in community development, social enterprise, community mobilization, and economic development.

The successes of the Winnipeg Committee for Safety have ***received praise and recognition*** from the citizens of Winnipeg, and numerous sources including the World Health Organization. As the WCFS works toward establishing Winnipeg as an internationally recognized Safe Community by the WHO we welcome the challenge, and look to our past achievements as the building blocks for our even greater future accomplishments.

Safety is everyone's responsibility.

Yours sincerely,

Councillor Harvey Smith
Chair, Winnipeg Committee for Safety

Brody Grusko
Coordinator, Winnipeg Committee For Safety
