Submitting draft by-law amending the Secondary Dyke By-law, which by-law may receive all three readings.

Advising that the three maps being substituted for Maps "A.1", "A.2" and "A.3" in the by-law are simply more accurate representations of the secondary dyke corridors than the maps they replace. Further advising that this amendment is not prompted by any change in location of the dykes on the grounds; it simply better represents those locations and the corresponding corridors replaced by the By-law. File PD (By-law No. 53/2009)

From the City Solicitor/Manager of Legal Services,

Submitting draft by-law amending Schedule B of the Vacant and Derelict Buildings By-law, which by-law may receive all three readings. Advising that the amendment removes the obligation on the part of property owners to seal the principal entrance to a vacant building with tamper-proof tape.

Further advising that this requirement was originally instituted to assist City enforcement officials and fire fighters in determining whether a vacant building had been entered (legally or illegally). However, there have been difficulties in locating supplies of tamper-proof tape in the City, with the result that it is functionally impossible for property owners to comply with this requirement. Accordingly, it has not been reasonable for the City to enforce this requirement. The amendment being proposed will simply reflect current practice.
