Comment(s):

i. The 2009 - 2011 Animal Services Selection Report assumes a tax-supported subsidy of $1,154,276 in 2009-2011. The SOA projects a deficit of $43,911 in 2009, and surpluses of $107,658 in 2010, and $216,967 in 2011 which will reduce the accumulated deficit [from the December 31, 2008 balance of $1,340,802 to $1,060,088 by the end of 2011].

ii. The Community Services Department's PeopleSoft 2009-2011 Draft budget submission provides a transfer of $1,104,276 in mill-rate support to the SOA, therefore an adjustment to the tax-supported PeopleSoft budget of $50,000 is required.

iii. Inflationary increases apply to fees for services not established in the Pound By-law (Surrendered Animals, Dog Adoptions, Trap Rentals/Set Ups).

- As projected in the 2008 – 2010 Business Plan (Selection Report)

The Agency receives revenue from a number of sources including dog licenses, pound and kennel fees, permits, adoption sales, surrendered animals, trap rentals, retail sales.

Dog Licensing

The City of Winnipeg has historically required dog owners to license their dogs. The current fees for dog licenses are $45.00 for intact dogs with a 50% reduction to $22.50 for sterilized dogs. Analysis of license sales shows that approximately 78% of licenses sold are for sterilized dogs. The last time dog license fees were increased was 2005.

When the Animal Services Agency became a Special Operating Agency of the City of Winnipeg, it identified as one of its main goals to become financially self-sustainable to the greatest extent possible through increased revenues and alternative methods of delivering its service. The current main source of revenue for the Agency is dog licensing, and in 2007 the Agency recovered approximately 45% of its expenditures from dog licensing

The agency proposes to increase the annual dog license fees effective March 1, 2009, from $22.50 to $30.00 for sterilized dogs and $45.00 to $60.00 for intact dogs with an annual $1.00 increase across the board for both 2010 and 2011. Table 1 outlines the current dog license fees by city for comparative purposes, including the proposed fees for Winnipeg.

The average dog license fees are $21.39 for sterilized dogs and $44.53 for intact.

It is estimated that 35% - 45% of dogs in the City of Winnipeg have valid licenses. Table 2 outlines historic performance of dog license sales for 2000 - 2007 in the City of Winnipeg.

Table 2: License Sales Performance 2000 - 2007

	Revenue	# of License Sold	% Change in # of License Sold	Fee	Discount Fee	% Change in Fee

2007	$975,855.00	35876	14.88%	$45.00	$22.50	0.00%

- Revenues and number of licenses sold have increased significantly from 2000 to 2007 (i.e. 224% and 125% respectively).
- The highest growth in license sales and revenue occurred from 2000 to 2004.
- Revenues and numbers of licenses sold increased dramatically in the last quarter of 2003 (i.e., 36.12% and 82.08% respectively) due to a by-law amendment passed by Council in September 2003 increasing fines for un-licensed dogs from $50 to $250.

- 2004 revenue increase was due to deferred revenues from increased license sales in the last quarter of 2003.
- Since 2004, revenues and sales growth has been volatile and has flattened.
- Volatile sales can be explained by staffing resource issues.
- In 2005, a 12.5% price increase was implemented plus an option for dog owners to purchase a two-year license which contributed to an increase in license sales (10.04%) and revenues (1.17%).
- Revenues and sales decreased by 2.31% and 11.15% respectively in 2006 due to lack of human resource capacity but revenues were higher than expected given the decreased license sales due to an increased revenue deferral from the previous year.

Table 3 outlines the projected dog license sales and revenues for 2008 - 2011 with actual sales for 2007.

Table 3:

	# Dog Licenses	Dog Licenses Revenue
Actual 2007	35,876	$ 866,631
Adopted 2008	48,000	$ 1,221,000
Actual 2008	36,300	$ 873,110
Proposed Budget 2009	37,000	$ 1,152,865
Proposed Budget 2010	40,000	$ 1,400,888
Proposed Budget 2011	43,000	$ 1,581,900

- Dog license terms vary from 8 months to 30 months. Licenses have staggered monthly renewals based on the first letter of the last name. As a result there will be unearned revenue on hand at year-end which is deferred into the following years.
- In 2007, $444,085 of license revenue was deferred to 2008.
- $486,343is to be deferred to 2009 - 2011 revenues from 2008 license sales.
- Original budgeted active license sales targets for 2008 were 48,000. Actual active licenses sales for 2008 were approximately 36,300. This reduction resulted in a $347,890 loss in license sales revenue for 2008.
- An amendment to the City of Winnipeg Pound By-law No. 2443/79 will be required to increase dog license annual fees.

City of Winnipeg/Humane Society Service Agreement

The City of Winnipeg and the Winnipeg Humane Society had a three-year service agreement in place ending December 31,2008 which in part required the Humane Society to provide kenneling space for all cats trapped pursuant to the by-law and handle other general and specific animal welfare issues. Included in the service agreement was a low cost cat spay and neuter program provided by the Humane Society and subsidized in part by the City of Winnipeg to a maximum of $50,000 annually. Cost of the sterilization was shared equally by the City of Winnipeg, the Winnipeg Humane Society and the cat owner with each party paying $20.00 towards the procedure. This service agreement is funded through the Animal Services Agency's budget.

The Agency has begun negotiations with the Winnipeg Humane Society for a new service agreement for the period 2009-2011 which requires the approvals of Council and the Winnipeg Humane Society Executive Board. The 2009-2011 financial projections are based upon the assumptions contained in Table 9.

The Agency and the Humane Society have agreed to work together in delivering targeted neighbourhood programs dealing with cat spay and neutering and responsible pet ownership. It is anticipated that through collaborative efforts some of the ongoing issues surrounding increasing populations of stray cats and irresponsible cat ownership can be resolved.

Table 9: Service Agreement Funding Costs

General Service Agreement Grant	275,000	275,000	275,000

Total Service Agreement Cost	**350,000**	**350,000**	**350,000**

Human Resources:

In June of 2007, the Agency re-aligned funding from two vacant Animal Services Officer I positions to create two temporary License Inspector I positions to deal only with dog licensing issues. The Agency experienced difficulty in recruiting qualified staff and retaining staff once hired. This license enforcement program showed success when operating at full strength. The Agency intends to re-align the funding back to the vacant Animal Service Officer Positions and assign those positions, once filled, primarily to licensing. The two temporary positions are currently vacant.

Information Technology:

Animal Services will be enhancing its service delivery in 2009 with the installation of wireless technology. The Agency will be installing portable computer technology in each of its service vehicles which will provide field staff with real time access to service requests and archived information stored in the Animal Services Information System.

This technology will in addition to improving service delivery provide Officers field access to any prior history/warnings about a particular address before attending which will improve employee safety.

By-Law Amendments:

1. Increase kennel fees for 2010 and 2011

As per Clause 21(5)(e) of the Pound Bylaw, dog owners must pay a daily kenneling fee for each day their dog is impounded before they can claim their dog. These fees are applied against the cost incurred by the Agency for caring and feeding dogs during impoundment. The daily fee has been increased $1.00 per day in each of the previous two years and is set to increase $1.00 in 2009. The Agency is recommending that the By-law be amended to allow increasing the fee $1.00 per day in each of the years 2010 and 2011.

2. Rewording of Clause 20(1)(j) as it pertains to Rabies vaccination for dogs

Clause 20(1)(j) of the Pound By-law states that a dog owner;

"… produce on demand a Certificate of Vaccination for rabies for each dog he or she owns from a licensed Veterinary Surgeon showing that each dog has been vaccinated within the 12 months immediately preceding the demand."

The current wording demands that dog owners vaccinate their dog every year for rabies. Rabies vaccinations are now available in multi-year doses. This allows dog owners the flexibility to acquire the vaccination dose that suits their needs. It is recommended that the wording in this clause be changed to indicate valid Rabies vaccination in place of the timeframe of the previous 12 months.

3. Valid rabies vaccination for all cats

It is recommended that in the interest of public health, a requirement for cat owners to produce on demand to the Animal Services Agency, a Certificate of Vaccination for rabies from a licensed Veterinary Surgeon for each cat they own similar to the requirement for dog owners be added to the Pound By-law. Cats, through their nature, like to travel in areas such as under decks, in ditches, in culverts, etc., which are frequented by possible rabid animals, such as skunks, weasels, etc. Table 10 details the number of biting/aggressive cats the Agency has handled since 1996.

4. Pro-rated rebates for current valid dog licenses upon proof of sterilization

Dog License fees are currently $45.00 for intact dogs and $22.50 for sterilized dogs, a 50% reduction. Pet owners who license their intact dogs must wait until the next year for a reduction to their license fee. In fairness, if a pet owner takes the responsible step to sterilize their dog, they should be able to reap the benefits of a reduced license fee as soon as possible. It is recommended that the Pound By-law be amended to allow a pro-rated rebate to a pet owner who provides proof from a licensed Veterinary Surgeon that their pet was sterilized within the current license year. Rebates should be pro-rated to the closest quarter year.

5. Replace the requirement for owners of dangerous dogs to tattoo their dogs with the requirement to microchip

The Pound By-law currently requires owners of dogs designated as a “Dangerous Dog” to “…cause the dog to be tattooed upon the ear or flank by a licensed Veterinary Surgeon…” Typically, to apply a tattoo to a dog, the dog must be anesthetized before the tattoo process can begin. Although tattoos are an industry accepted and efficient method of providing a permanent identifier on an animal they can, over time, be difficult to read due to fading or distortion and because of their location, inside the ear or rear flank, they can be problematic to read on aggressive dogs.

Dangerous dogs are required to be tattooed in the case they are not wearing their tags when picked up. To simplify the need for alternate identification, it is recommended that the requirement for tattoos be replaced with a requirement for a micro-chip implant. Micro-chips on dog are implanted under the skin at the top of the front shoulders on the back. The information contained on the chip is held in national data banks and is accessible 24/7. Also, microchips are easily read with a handheld scanner which requires little if any physical contact with the dog. Installation of the chip is painless and takes only seconds to insert.

Additional Comments: i. The 2009 - 2011 Animal Services Selection Report assumes a tax-supported subsidy of $1,154,276 in 2009-2011. The SOA projects a deficit of $43,911 in 2009, and surpluses of $107,658 in 2010, and $216,967 in 2011 which will reduce the accumulated deficit [from the December 31, 2008 balance of $1,340,802 to $1,060,088 by the end of 2011]. The Community Services Department's PeopleSoft 2009-2011 Draft budget submission provides a transfer of $1,104,276 in mill-rate support to the SOA, therefore an adjustment to the tax-supported PeopleSoft budget of $50,000 is required.

2. ACCOUNTING POLICIES

The projected financial statements have been prepared on the basis of generally accepted accounting principles. The projections include the following significant accounting policies:

Inventory

Inventory is stated at the lower of cost and net realizable value.

Equipment

Equipment is recorded at cost and is depreciated on a straight-line basis over the estimated useful life of the asset using the following annual rates:

Computer equipment	25%
Furniture and other equipment	20%

Budget Column

The 2008 adopted budget information, from the Council approved 2008-2010 Selection Report Animal Services Special Operating Agency, has been added to the financial statement to facilitate effective analysis and comparison. However, 2007 Surplus (Deficit) is updated with 2007 actual figures.

3. FINANCIAL PROJECTION

This financial projection is an estimate of the financial position, results of operations and change in cash flow, for the operations of Animal Services Special Operating Agency, using management's assumptions that reflect the Agency's planned course of action for the three years ending December 31, 2011. Management's judgment has been used in the assumptions and the most probable set of economic conditions, together with the hypotheses stated in note 4 below. The hypotheses are consistent with the purpose of the information, but are not necessarily the most probable in management's judgment. Some assumptions inevitably will not materialize and unanticipated events and circumstances may occur subsequent to the date of this projection. Therefore, the actual results achieved during the projected period will vary from the projections and the variations may be material.

4. HYPOTHESES

The financial projection has been prepared based on the following hypotheses:

(a) That the City of Winnipeg will agree to provide an annual operating grant of $1,154,276 for 2009, 2010 and 2011.
(b) That the City of Winnipeg will extend a line of credit as detailed in the Financial Statements contained within the Council approved annual Selection Report prepared by the Agency, sufficient for the Agency to carry on operations.
(c) That the Agency will be allowed to purchase any support services required to sustain ongoing operations.
(d) Consumer Price Index are assumed at 2.2% for 2009; 2.0% for 2010 and 2.0% for 2011 provided by Corporate Finance.
(e) That the City of Winnipeg re-negotiates a new service agreement with the Winnipeg Humane Society as the past agreement expired on December 31, 2008.

5. ASSUMPTIONS – REVENUE

(a) Pound Fees

The basic fees for running at large are: first offence - $50, second offence - $150 and third offence - $225. Pound revenues are based on 338 -1st offences, 25 - 2nd offences and two - 3rd offences per year.

(b) Kenneling Fees

Kenneling fees were set at $21 per day effective 2009 and will increase annually by $1 per day to $23 by 2011. 2009 volumes are based on servicing 365 dogs annually with an average stay of 5 days.

(c) Dog Licenses

The following fees and volumes were derived based on the Agency's analysis of the market:

Year	Average License Fee	Anticipated Sales

THE CITY OF WINNIPEG
ANIMAL SERVICES - SPECIAL OPERATING AGENCY

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2007

1. Description of Business

Animal Services - Special Operating Agency (the "Agency") commenced operations on January 1, 2000. Goals since the establishment of the Agency have been to become financially self-sustaining to the greatest degree possible and to improve both the services provided to the public and the public's perception of Animal Services.

2. Significant Accounting Policies

The financial statements have been prepared on the basis of Canadian generally accepted accounting principles ("GAAP"). The financial statements are based on the following significant accounting policies:

Revenue recognition

License revenues are recognized over the license validation period.

Inventory

Inventory is stated at the lower of cost and net realizable value.

Equipment

Equipment is recorded at cost and is depreciated on a straight-line basis over the estimated useful life of the asset using the following annual rates:

Computer equipment	25%
Furniture and other equipment	20%

Deferred revenue

Included in deferred revenue is $32,130 (2006 - $40,163) received from the City of Winnipeg for the purchase of communication equipment. This amount is recognized as income at the same rate that the related assets are being depreciated.

Future accounting policy changes

The Canadian Institute of Chartered Accountants ("CICA") has issued two new standards, CICA 3862, Financial Instruments - Disclosures and CICA 3863, Financial Instruments - Presentation, which enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and management of these risks.

The CICA has also issued a new accounting standard, CICA 1535, Capital Disclosures, which requires the disclosure of qualitative and quantitative information that enables users of financial statements to evaluate the entity's objectives, policies and procedures for managing capital.

These changes in accounting policies, which will be adopted effective January 1, 2008, will only require additional disclosures in the financial statements.

3. Changes in Accounting Policies

On January 1, 2007, the Agency retroactively adopted, without restatement of prior periods, the CICA Handbook Sections 3855, Financial Instruments - Recognition and Measurement; Section 3861, Financial Instruments - Disclosure and Presentation; and Section 1530 - Comprehensive Income.

According to Section 3855, all financial instruments are classified into one of the following five categories: held-for-trading, loans and receivables, held-to-maturity, available-for-sale or other liabilities. Initial measurement of financial instruments is at fair value; subsequent measurement and recognition of changes in fair value of financial instruments depends on their initial classification. The Agency's cash is classified as held-for-trading and the accounts receivable are classified as loans and receivables. Accounts payable and accrued liabilities, vacation and overtime payable, and due to The City of Winnipeg - General Revenue Fund have been classified as other liabilities. Financial assets classified as held-for-trading are reported at fair value with changes in fair value recognized in the Statement of Loss and Deficit and transaction costs related to this classification of financial instruments are expensed as incurred. Financial assets and liabilities classified as loans and receivables and other liabilities are measured at amortized cost. The Agency will recognize changes in the fair value of loans and receivables only if realized, or impairment in the value of an asset occurs. The Agency has not classified any financial instrument as held-to-maturity or as available-for-sale. The book value of the Agency's financial assets and liabilities approximates their fair value, therefore there was no impact on the Agency's financial position or on the results of its operations related to the adoption of these standards.

Section 1530 provides guidance on the reporting and presentation of comprehensive income. Comprehensive income is the change in the capital deficiency of the Agency during a period from transactions and other events and circumstances from sources other than from the City. It includes all changes in capital deficiency during a period except those resulting from investments by the City and distributions to the City. Other comprehensive income comprises revenues, expenses, gains and losses that, in accordance with primary sources of GAAP, are recognized in comprehensive loss, but are excluded from net loss. The adoption of this standard had no impact on the Agency's capital deficiency as at January 1, 2007.

Effective January 1, 2007, the Agency also adopted CICA Section 1506, Accounting Changes. The new standard allows for voluntary changes in an accounting policy only when the changes result in the financial statements providing reliable and more relevant information, requires a change in accounting policy to be applied retroactively and calls for enhanced disclosures about the effects of changes in accounting policies, estimates and errors on the financial statements. It includes the disclosure, on an annual basis, of a description and the impact on the Agency's financial results of any new primary source of GAAP that has been issued but is not yet effective. The adoption of the new standard did not have an impact on the Agency's financial position or on the results of its operations.

4. Financial Instruments

It is management's opinion that the Agency is not exposed to significant interest, currency or credit risks arising from its financial instruments. The book value of the Agency's financial assets and liabilities approximates their fair value.

5. Accounts Receivable

	2007	2006
Trade accounts receivable	$ **45,482**	$ 41,505
Allowance for doubtful accounts	**(36,021)**	(19,105)
	9,461	22,400
Provincial grant	**22,675**	22,674
	$ **32,136**	$ 45,074

6. Due to The City of Winnipeg - General Revenue Fund

The City of Winnipeg operates a centralized treasury function with a single operating bank account in the General Revenue Fund. Consequently, Animal Services does not have a bank account. Bank transactions are credited or charged to the "Due to" account when they are processed through the bank. Interest is charged based on The City of Winnipeg's average short-term cost of funds, which is a function of the Bank of Canada rate. The December 31, 2007 effective interest rate was 4.2% (2006 - 4.3%). City Council approved, in the Agency's 2007 budget, an operating line of credit up to $520,000 from The City of Winnipeg.

During the year, the Agency paid $1,647 (2006 - $914) in interest costs.

7. Employee Benefits

a) Retirement allowance

Under the retirement allowance plan, qualifying employees become entitled to a cash payment upon retirement, death or termination of service under certain conditions (not resignation). The costs are actuarially determined using the projected benefit valuation method pro-rated on services and reflects management's best estimate of retirement ages of employees, salary escalation and length of service. In addition, adjustments arising from plan amendment, changes in assumptions and experience gains and losses are amortized on a straight-line basis over 10.0 years, which represents the expected average remaining service life of the employee group. Amortization is calculated beginning in the year following the year of occurrence of the actuarial gains or losses.

The Agency measures its accrued retirement allowance obligation as at December 31 of each year. An actuarial valuation report of the obligation was prepared effective December 31, 2005. The results of this valuation were extrapolated to December 31, 2007.

Information about the Agency's retirement allowance benefit plan is as follows:

	2007	2006

During the year, $63,973 (2006 - $63,382) of pension costs were allocated to Animal Services. An actuarial valuation for the Winnipeg Civic Employees' Benefits Program was made as of December 31, 2006 and has an actuarial surplus.

8. Commitments

The Agency and the Winnipeg Humane Society have entered into a contract that is in force from January 1, 2006 to December 31, 2008. Subject to the Winnipeg Humane Society complying with the terms of the agreement, the Agency agrees to pay the Winnipeg Humane Society the sum of $200,000 per year, payable in quarterly installments of $50,000. In addition, the Agency agrees to pay $20.00 for every spay/neuter that the Winnipeg Humane Society performs up to an annual maximum of $50,000.
