Report Summary

Key Issues:

- The 2009 zone levy for fifteen (15) established Business Improvement Zones is conditional upon Council approving the budgets adopted at the Annual General Meeting of each zone.

- Selkirk Avenue Business Improvement Zone did not adopt a budget for 2009.

- Due to the change a zone may have experienced in the annual rental values used for setting the zone's levy rates, the levy rate changes range from a decrease of 28.1% in the Transcona zone to an increase of 32.9% in the Norwood Grove zone.

Report

REASON FOR THE REPORT:

In order for each Business Improvement Zone (BIZ) to obtain the revenue required to meet its 2009 budget, Council must impose, by by-law, the zone levy rates (Exhibit "A") to be applied to the Business Tax Roll for each of the Business Improvement Zones that have submitted a budget for 2009.

HISTORY:

Under the *City of Winnipeg Charter* Council may, by by-law, establish a BIZ as well as set the policies and procedures for Business Improvement Zones including, among other factors, the administrative process for reviewing and approving individual BIZ budgets. This authority was accomplished by enacting the Business Improvement Zone Procedures By-law No. 8111/2002.

DISCUSSION:

The City of Winnipeg has received the 2009 budgets from all but one of the existing Business Improvement Zones.

The Selkirk Avenue Business Improvement Zone did not adopt a 2009 budget. The Board of the Selkirk BIZ has submitted a letter advising the City Clerk of the need to review its options with regard to Board development and recruitment, which may help permit the continued existence of the zone.

For the purposes of raising sufficient money for each BIZ budget, a business improvement zone levy rate has been calculated and will be applied against the annual rental value of each business within the Business Improvement Zone (see Exhibit "A").

Exhibit "B" provides a 2008/2009 comparison of each Business Improvement Zone's budget levy requirement and the levy tax rate.

Of the ten (10) zones with a decrease in the 2009 annual rental value (ARV), the most significant change was in the Downtown Winnipeg zone. While the other four (4) zones' ARV increased, the most notable increase occurred in the Transcona zone.

It is further noted that the budget levy requirement changes for all zones ranged from a decrease of 18.2% for the Transcona BIZ to an increase of 32.1% for the Norwood Grove BIZ. The levy rate changes ranged from a decrease of 28.1% to an increase of 32.9% for the Transcona BIZ and Norwood Grove BIZ, respectively.
