Date:
Subject: Application to rezone the subject property from an "R1-S" Single-Family Residential District to an "R2" Two-Family Residential District

Location: 733 McMillan Avenue
Legal Description: SP Lot 13 Plan 27431

Applicant: Chris Johnston
Owner: Same

Recommendation: Approval

Site Description
The subject property, which is zoned "R1-S" Single-Family Residential, is located on McMillan Street between Cockburn and Arbuthnot Streets in the McMillan neighbourhood of the Fort Rouge-East Fort Garry ward.

North: Residences zoned "R1-S" Single-Family Residential, "R2" Two-Family Residential, and "RMF-S" Multiple-Family Residential
South: Residences zoned "R1-S" Single-Family Residential
East: Residence zoned "R2" Two-Family Residential
West: Residence zoned "R1-S" Single-Family Residential

1.1 Description of the Proposed Development

In 1955, the subject property received zoning approval to expand from a duplex into a triplex. At this time, the owner seeks approval to expand the triplex into a fourplex.

The house currently has one suite on the first floor (±1,200 sq ft) and two suites on the second floor (±700 sq ft and ± 500 sq ft). The proposed fourth suite would measure ± 500 sq ft and would be located in the basement.

In light of the fact that a fourplex is not permitted in the "R1-S" Single-Family District, the applicant has applied to rezone the property. In addition, a conditional use and two variances are required.

1.2 Analysis

Compatibility with existing neighbourhood and surrounding uses
The subject block contains a variety of different housing types with varying densities, including two apartment buildings and several converted houses. A list of the existing multiple-family dwellings on the block is as follows:

39 Arbuthnot	8 units
51 Arbuthnot	26 units
751 McMillan	9 units
747 McMillan	8 units
744 McMillan	2 units
739 McMillan	10 bed neighbourhood rehabilitation home
733 McMillan	3 units
216 Cockburn	5 units

Consequently, the Planning and Land Use Division believes that the addition of one suite in this dwelling is not out of step with the overall development and density pattern of the area.

Further to that, the Planning and Land Use Division has attended the property and believes that the condition of the property and the quality of the living spaces is satisfactory.

Public Input
The applicant submitted a petition signed by some of the immediate neighbours supporting the addition of one rental suite.

1.3 Recommendation

The Planning and Land Use Division recommend approval for the following reasons:

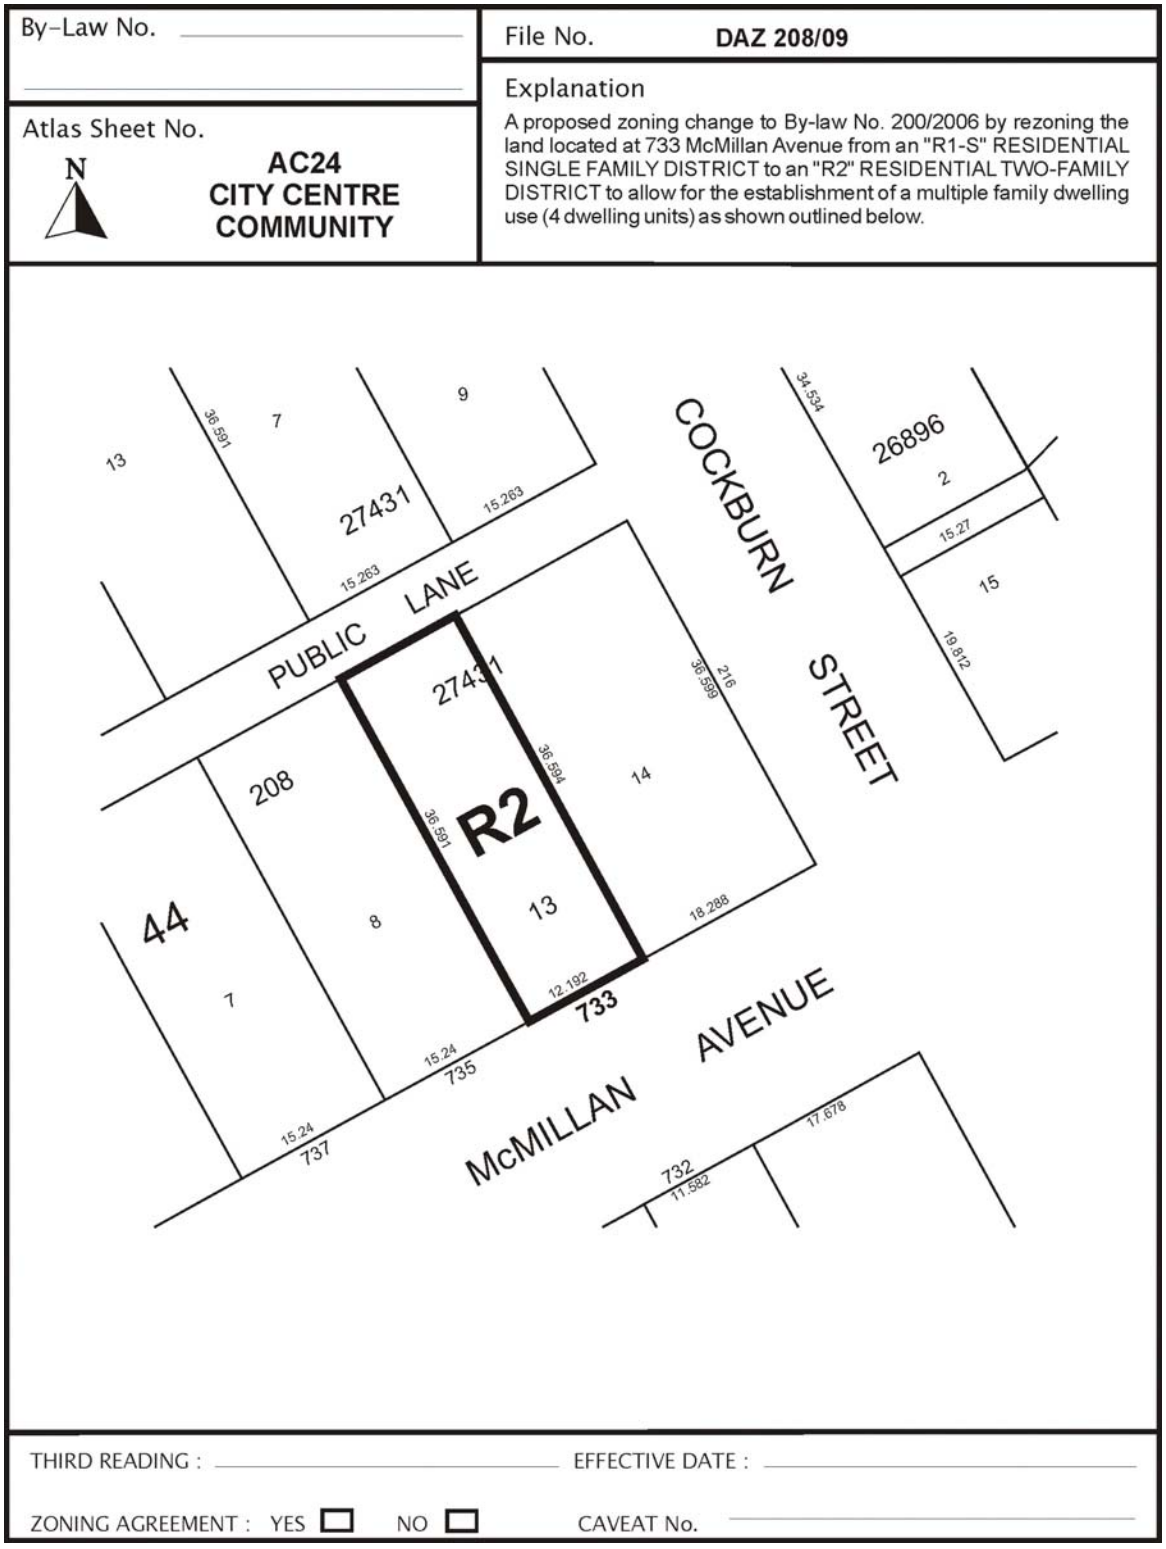

- The subject block contains a variety of different housing types with varying densities, including two apartment buildings and several converted houses.

- The addition of one suite in this dwelling is not out of step with the overall development and density pattern of the area.
