2 Chicago Green Alley Initiative

MEAC considered a proposal from William Dowie, MEAC member, that the City investigate the Chicago Green Alley Initiative and Vancouver's Country Lanes program to determine the feasibility of a pilot initiative in Winnipeg.

RECOMMENDATION: That MEAC recommend to the Mayor that that Winnipeg Public Service be requested to explore this matter further with the intent to initiate a pilot program in a city backlane to be determined by the aforementioned public works process.

CURRENT ACTIVITIES

Green House Gas Reduction Strategy

On May 20, 2009, The Executive Policy Committee directed the Winnipeg Public Service, in consultation with the Mayor's Environmental Advisory Committee, to report back to the Executive Policy Committee in 90 days with recommendations regarding:

(i) a comprehensive strategy and action plan for achieving a further 20% reduction of corporate greenhouse gas emissions;

(ii) a status update on the 6% target for reduction of community-wide greenhouse gas emissions; and

(iii) opportunities for partnerships with other public and private entities on both corporate greenhouse gas reductions and community-wide greenhouse gas reductions.

MEAC members provided input to the report at a meeting held September 7, 2009. The resulting report was approved by Council on September 30, 2009. MEAC will act as the Steering Committee for the Community-wide Climate Change Action Plan, along with representatives from other sectors. The Action Plan will be created through a process involving community partners and organizations as well as citizens through a community engagement process. The draft Community-wide Climate Change Action Plan will be submitted in August 2010.
