BACKGROUND

- The applicant applied for a variance for this property (DAV 09-152565/C), but subsequently withdrew the application prior to the application being processed.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant would like to construct a two-family dwelling (side-by-side or duplex).
- The proposed area of development for each of the two residences is approximately 1,020 square feet (94.8 square metres).
- The proposed height of the development would be below thirty-five (35) feet, which is the maximum height permitted in the “R2” Residential Two-Family zone.
- The draft site plans for the development show that the two buildings would have side yards of just over four (4) feet, rear yards greater than twenty-six feet (26), and front yards of twenty (20) feet.

ANALYSIS

PLAN WINNIPEG COMPLIANCE

- The proposed rezoning complies with *Plan Winnipeg 2020.*

ZONING

- **"R1-M" Residential Single-Family District** is intended to accommodate primarily single-family residential development in lower-density neighbourhoods. Minimum lot sizes of 3,500 square feet and minimum lot widths of 25 feet are required. Side yards of 4 feet are required. Front yard requirements are 15 feet; rear yard requirements are 25 feet. The maximum building height is 35 feet.

- **"R2" Residential Two-Family District** is intended to accommodate the development of single and two-family units and where appropriate limited multi-family units in lower density neighbourhoods. There is a front yard requirement of 20 feet and the maximum building height is 35 feet. The minimum side yard requirement is 4 feet and the minimum reverse side yard requirement is 10 feet. The minimum lot width is 25 feet and lot area 5,000 square feet (2,500 per dwelling unit).

LAND USE BY-LAW ISSUES

- 'Two-family dwellings' are not permitted in the "R1" Residential Single-Family zoning district.
- 'Two-family dwellings' are permitted in the "R2" Residential Two-Family zoning district.

NEIGHBOURHOOD COMPATIBILITY

- The subject property is located at the corner of Keewatin Street and Selkirk Avenue.
- Manufacturing zones are located to the south of the property.
- There are a number of lots zoned "R2" Residential Two-Family within the area. Most notably there are six (6) existing lots zoned "R2" Residential Two-Family 150 metres north of the subject property on the west side of Keewatin Street.
- The Planning and Land Use Division has supported numerous minor intensifications such as two-family dwellings in predominantly single-family neighbourhoods, especially when the property is located on the corner.
- Bearing in mind the points listed above, the proposed "R2" zoning is compatible with the neighbourhood.

SITE DESIGN ISSUES

- The subject property is classified as one zoning lot that consists of two lots of a plan of subdivision (Lots 27 and 28, Block 4, Plan 920).
- The City of Winnipeg Plan Examination Branch will require that the party wall is centred on the boundary between Lots 27 and 28, Block 4, Plan 920 prior to a final building permit being issued.

LAND DEDICATION

- When a developer rezones and/or subdivides a parcel of land, they are required to put in an application with the City of Winnipeg.
- As a condition of rezoning or subdivision, a developer is required to contribute a portion of the land to be developed to the City for parks purposes.
- The amount of lands is not less than 10%.
- The developer will provide land or 'cash in lieu' as determined by the Planning, Property and Development Department.
- The Planning, Property and Development is requesting 'cash in lieu' for this application.

RECOMMENDATION

The Planning and Land Use Division recommends **approval** for the following reasons:

- The proposed development and rezoning is compatible with the surrounding neighbourhood.
- The rezoning is consistent with Plan Winnipeg policy to provide infill housing at appropriate locations.
