Report - Standing Policy Committee on Property and Development – January 5, 2010

DECISION MAKING HISTORY:

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On January 20, 2010, the Executive Policy Committee concurred in the recommendation of the Standing Policy Committee on Property and Development with the following amendment:

- Add the words "or a portion thereof" at the end of Recommendation No. 1,

and submitted the matter to Council.

STANDING COMMITTEE RECOMMENDATION:

On January 5, 2010, the Standing Policy Committee on Property and Development concurred in the recommendation of the Winnipeg Public Service and submitted the matter to the Executive Policy Committee and Council.

COUNCIL DECISION:

On November 25, 2009, Council concurred in the recommendation of the Standing Policy Committee on Property and Development and adopted the following:

1. That the Public Service be instructed to continue negotiations with the current owners.

2. Concurrently, in order to meet the construction schedule for 2010, the Acting City Solicitor/Manager of Legal Services be instructed to initiate expropriation proceedings, including the necessary by-law for the submission to Council, to acquire the interests in land identified on Schedule "A" (contained in the Public Service report dated October 8, 2009) required by the City for the Waverley Street Twinning Project, between Bison Drive and John Angus Drive.

3. Subject to the approval of Recommendation 2, that the Director of Planning, Property and Development be authorized to request the Province of Manitoba to waive the requirement for an expropriation inquiry, under clause 9(8)(a) of The Expropriation Act.

4. That the Proper Officers of the City be authorized to do all things necessary to implement the foregoing, including execution of any necessary documents and preparation of any necessary by-laws.

RECOMMENDATIONS

1. That Council amend Recommendation #2 of The Planning, Property and Development Report (dated October 8, 2009) as adopted by Council on November 25, 2009, and instruct The City's Legal Services Division to initiate expropriation proceedings to acquire the interests in land identified on the attached amended Schedule "A";

2. That the interest in land identified as Property #1 on Schedule "A" attached to the report adopted by Council on November 25, 2009 from the Director of Planning, Property and Development, (dated October 8, 2009) be removed from the expropriation of required lands.

IMPLICATIONS OF THE RECOMMENDATIONS

The Public Works Department has reviewed the recently completed design developed by the engineering consultant retained to oversee the twinning of Waverley Street. Upon review of the proposed detailed design, it has been determined that the permanent component of the project can be completed without the widening of the Right-of-Way directly south of Cadboro Road adjacent to 2171 Waverley Street (Property #1 of the report adopted by Council on November 25, 2009) at this time.

The widening of the Right-of-Way at 2171 Waverley Street may be required when the Bison Drive and Waverley Street intersection is redesigned to accommodate the extension of Bison Drive west of Waverley Street.

In order to accommodate the relocation of underground and overhead utilities for the current project, certain utility companies may request easements within 2171 Waverley Street.

Parameters of permanent easements for 2010 construction have been refined and as a result, these lands, Property #1 of the report adopted by Council on November 25, 2009 (as shown on Schedule "B"), are no longer required for completion of this project at this time and therefore can be removed from this expropriation.

HISTORY

On October 30, 2007, the Standing Policy Committee on Property and Development concurred in the recommendation, that prior to commencing with the development of Phase II of the Waverley West Development Plan, Waverley Street from Bison Drive to John Angus Drive should be twinned and the Developer shall be responsible for front ending this cost.

At its meeting held on July 16, 2008, Council considered and approved the Public Works Department's report authorizing the acquisition of the lands needed for the Waverley Street Twinning Project between Bison Drive and John Angus Drive. Subsequently on November 14, 2008 the Public Works Department provided the Planning, Property and Development Department (the Department) with sketches identifying the required land interests and requested that negotiations to acquire the said land interests commence immediately.

The Developer has advised that Phase II of the Waverley West Development Plan is scheduled to commence in the spring of 2010, and the Developer would like to commence with the twinning of Waverley Street at the earliest possible date.

On November 25, 2009, Council approved the recommendation by the Standing Policy Committee on Property and Development to initiate expropriation proceedings of 5 parcels of land required for the Twinning of Waverley Street (as shown on Schedule "A" attached to the report from the Director of Planning, Property and Development, dated October 8, 2009).

As previously noted, the Public Works Department has reviewed the recently completed design for the twinning of Waverley Street. Upon review of the proposed detailed design, it has been determined that the permanent component of the project can be completed without the widening of the Right-of-Way directly south of Cadboro Road, adjacent to 2171 Waverley Street (Property #1 of the report adopted by Council on November 25, 2009) at this time.

This area is Zoned "A-Agricultural". In this zoning district, Churches (Places of Worship) are 'Conditional' Uses - and only up to 40,000 square feet (i.e. churches over 40,000 square feet are ***not*** permitted). A conditional use application would be needed to expand an existing church up to a maximum 40,000 square feet, or a rezoning would be required to expand a church beyond 40,000 square feet. A conditional use would also be necessary to establish a new church. The Winnipeg Public Service would reject any applications, such as 'Conditional

Uses', 'Rezoning' and/or 'Subdivision' whose purpose are to allow the intensification of existing and/or new land-uses, as it is contrary to the City of Winnipeg Charter Section 235 that states the following:

> *The passing of a Plan Winnipeg by-law or a secondary plan by-law does not require council, any person, or any department or agency of the government, to undertake a proposal contained in the by-law, but public works, undertakings and development in the city must be consistent with Plan Winnipeg or any secondary plan.*

It will therefore not be necessary to impose a property setback for Property #1 of the report adopted by Council on November 25, 2009 (as shown on Schedule B attached) in the event that the said lands are required for the widening of the Right-of-Way when the Bison Drive and Waverley Street intersection is redesigned to accommodate the extension of Bison Drive west of Waverley Street.

FINANCIAL IMPACT

Financial Impact Statement **Date:** December 22, 2009

Project Name:

Expropriation of Land Interests – Waverley Street Twinning Project - Between Bison Drive and John Angus Drive

COMMENTS:

The recommendations contained in this report include 1) That Council amend Recommendation #2 of The Planning, Property and Development Report (dated October 8, 2009) as adopted by Council on November 25, 2009, and instruct The City's Legal Services Division to initiate expropriation proceedings to acquire the interests in land identified on the attached amended Schedule "A"; and 2) That the interest in land identified as Property #1 on Schedule "A" attached to the report adopted by Council on November 25, 2009 from the Director of Planning, Property and Development, (dated October 8, 2009) be removed from the expropriation of required lands.

The financial implications associated with approval of these recommendations will not be known until such time as settlements with affected property owners are reached. At present, it is anticipated that sufficient Council-approved funding is available in a Public Works capital account.
