Subject: increase funding for sidewalks

March 12, 2010,

I very much support Councillor Russ Wyatt's motion to increase the budget for building sidewalks. Often sidewalks are a key link to a multi use pathway.
As an organizer of walks for Prairie Pathfinders Walking club (500+members) we often find that it is necessary to walk on a busy road that poses a danger to our club members. Often pedestrians are put at great risk when they have to share a road with an automobile. Pedestrians in Winnipeg need to have more sidewalks. Thanks Councillor Wyatt for recognizing this problem. I would be pleased to help identify areas that need sidewalks. One place I have described to my councillor J. Gerbasi.
