Subject: Ref. EPC Motion #5; Council Meeting January 27, 2010

Please except this e-mail as a letter of support for Councillor Wyatt's motion to include additional funding for sidewalks in the 2010 Operating Budget.

Given the increase in spending on active transportation, sidewalks too must be addressed. In order for Winnipeg to move forward with a healthier, safer society; we need a walkable city. Friendly Manitoba and Spirited Energy are not found in cars, but in the meeting people face to face on the sidewalks and walkways in our city.

Sigrun Bailey
