COMMUNITY ORIENTED CHARITY
RESULTS ORIENTED BUSINESS

Versatech is a registered charity established to provide work-related training and jobs for individuals with mental disabilities. We have adopted a not-for-profit revenue generating business model that emphasizes both the quality of the support we provide to our client employees, and the quality and value of the products and services we offer to our customers.

PRACTICAL PROGRAMS
COST-EFFECTIVE RESULTS

Versatech provides its client employees with opportunities to work, to grow and develop their individual abilities within practical and cost-effective programs. We seek work opportunities that help our client employees become valued and contributing members of the greater community, to build real skills and take pride in work well done.
