RECOMMENDATIONS

1. That the previous Council authority dated March 22, 2006, approving the sale of the subject City property shown on Misc. Plan No. 10963/2 to Sistars Economic Development Co-op Inc. at a price of $1.00 for the development of a child care facility, be rescinded:

2. That subject to the approval of Recommendation #1, the sale of the subject City property as shown on Misc. Plan No. 10963/2 to Sistars Economic Development Co-op Inc. be approved at a price of $1.00 for the development of a child care facility, subject to:

   (a) The Purchaser providing (i) the submission of a viable Business Plan to the satisfaction of the Director of Planning, Property and Development Department, and (ii) evidence that funding has been secured in order to complete the proposed development (as revised) satisfactory to the Director of Planning, Property and Development.

   (b) The terms and conditions of sale being in accordance with the City's policy on the sale of land to non-profit organizations and substantially in accordance with the terms and conditions as set-out in Schedule "A" attached, and any other such terms and conditions that are deemed necessary by the Director of Planning, Property and Development and the City Solicitor/Manager of Legal Services in order to protect the interests of the City.

3. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

IMPLICATIONS OF THE RECOMMENDATIONS

- The Public Service would be in a position to sell the subject City property to Sistars Economic Development Co-op Inc. ("Sistars"), at a price of $1.00, with terms and conditions being in accordance with the City's policy on the sale of land to non-profit organizations and any other terms and conditions that are deemed necessary by the Director of Planning, Property and Development and the City Solicitor/Manager of Legal Services in order to protect the interests of the City.

- Provisions for the redevelopment of Barber House, a Grade II Heritage Building, will be provided for in the Sale Agreement.

- The City will contribute $40,000.00 towards the remediation of lead impacted soils on the City property.

HISTORY

- In March, 2006, Council approved the sale of the subject City property shown on Misc. Plan No. 10963/2 to Sistars Economic Development Co-op Inc. at a price of $1.00 for the development of a child care facility and coffee shop/laundry/training centre.
- In September, 2006, and January, 2007, the Standing Policy Committee on Property and Development approved an extension of time(s) for the Purchaser to satisfy its due diligence conditions and to extend the date for commencement of the construction of the complex.
- In July, 2006, a Phase One Environmental Assessment (ESA) was completed by Sistars on the property. A Phase Two Assessment determined that some remediation was required due to the presence of lead in some of the soils, which had been deposited by others on a portion of the site. The consultant suggested the most economical and viable means remediation was to provide cover material for the site. The Public Service advised Sistars that the City would contribute up to $40,000.00 towards the cost of remediation (as the City would have to pay this cost if the site was not sold to Sistars and developed), provided that Sistars developed the site in such a manner as to satisfy the Province of Manitoba – Manitoba Conservation, that the site had been adequately remediated.
- While the Public Service has been in ongoing contact with Sistars since June of 2007, Sistars had been unable to confirm sources of financing for the project.
- In July, 2009, at Sistars request, the Public Service met with Sistars and the Province of Manitoba Intergovernmental Affairs/ Neighbourhoods Alive at which time a scaled down version of the earlier child care facility project was presented. The original plans for an ancillary coffee shop, laundry/training centre uses have been removed from the new project. Phase Two of the project would include the restoration of Barber House.

- In October, 2009, Sistars requested the Public Service to renew the proposed sale of the subject City property shown on Misc. Plan No. 10963/2 to Sistars for $1.00, for the development of a child care facility (as revised).
- Sistars have advised that they have confirmed funding of $1,457,806.00 to cover the capital cost of the new project.
- The Public Service has consulted with the Ward Councillor, who is supportive of the sale.

Culture, Heritage and Tourism Manitoba have provided the following information regarding the subject City Property:

"RE: Archaeological Concerns: Barber House, 99 Euclid Avenue, Winnipeg

Barber House was the focus of limited archaeological investigations in 1979. Work was limited to test excavations surrounding the existing house structure. Results indicated that additional structures were located on the property. Additionally, the artifact recoveries and architectural information from the mid to late 1880's were considered significant by the investigators. The site and land were considered to be in good condition, being little disturbed by later activities. Additional archaeological work was recommended to gain information on the history of the site, the Barber Family and the general lifeways of the mid-1800s community.

On the basis of this information the Historic Resources Branch will require an archaeological Heritage Resource Impact Assessment (HRIA) to be undertaken by an archaeological consultant prior to any development taking place that could potentially impact the subsurface heritage resources. If the HRIA study reveals significant heritage resources within areas that would be impacted by the planned development, further mitigative work may be required to retrieve this information before it is lost. In each case the cost of the impact assessment and any required mitigation work would be the responsibility of the developer."

13. The Purchaser shall not erect any buildings or structures on the Land other than those permitted to be erected or placed on the Land without the prior written approval of the Director of Planning, Property and Development.

14. The Purchaser hereby acknowledges and agrees that the City does not give any warranty as to the quality, condition or sufficiency of the Land for any use or purpose, or as to the presence or absence of hazardous substances on or under the Land and the Land is deemed to be taken by the Purchaser at its own risk with all faults and imperfections whatsoever and on a strictly as is, where is basis. Provided further that the Purchaser expressly agrees to assume any and all environmental liabilities related to the Land, including but not limited to, liability for clean up of any hazardous substances on or under the Land.
The Purchaser and the City acknowledge that a portion of the Lands requires remediation of the soil. The Purchaser agrees to be responsible for remediation of the soil to the satisfaction of Manitoba Conservation and to complete such remediation on or before November 30, 2011. Upon completion of the remediation on or before November 30, 2001, and upon receipt of notice from Manitoba Conservation that remediation of the Land by the Purchaser has been completed to the satisfaction of Manitoba Conservation, the City will provide Forty Thousand ($40,000.00) Dollars to the Purchaser towards the cost of the remediation of the Land.

For the purposes of this Agreement, hazardous substance or substances shall include any contaminants as defined or pursuant to any federal or provincial law, by-law, regulation or order.

Furthermore, the Purchaser agrees that it has been advised that soil conditions in Winnipeg are of the glacial till variety which are composed of Lacustrine Clays with Silt Intrusions. The Purchaser shall be responsible for any increased costs of development due to this random stratification and that the Purchaser and its agents indemnify the City against all claims respecting the issue arising out of the development of the Land by the Purchaser or its agents.

15. The Purchaser agrees that the City may register and maintain a caveat against the Land to ensure the performance of the covenants on the part of the Purchaser herein set forth, and the Purchaser agrees to grant and does hereby grant to the City an interest in the Land according to the tenor of this Agreement.

16. It is understood and agreed that this sale is subject to the Purchaser satisfying the following due diligence conditions on or before one hundred and twenty (120) days from the date of approval of the sale:

(a) Obtaining the necessary zoning, variances and conditional uses to be able to develop the Land for its purposes;

(b) Arranging suitable financing for the project;

Should the City not be advised in writing of the satisfaction or waiving of the due diligence conditions on or before one hundred and twenty (120) days from the date of approval of the sale, this Agreement becomes null and void and the City is at liberty to deal with the Land as it deems appropriate.

17. The Purchaser agrees that the sale of the Land shall be subject to the City's policy for the sale of lands to non-profit organizations and to be implemented as follows:
