RECOMMENDATIONS

1. That the proposed street opening as shown on Misc. Plan No. 13692/1 be approved.

2. That the City Solicitor/Manager of Legal Services be instructed to prepare the necessary by-law for submission to Council to effect the street opening in accordance with Misc. Plan No. 13692/1.

3. That the Proper Officers of the City be authorized to do all things necessary to effect the intent of the foregoing.

REASON FOR THE REPORT

All street and lane openings not previously approved by Council require the consideration of the Community Committee.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no policy, regulatory, environmental, human resource or general implications associated with the recommendations.

Funding for the preparation and registration of the documents required to dedicate the land as public street has been provided by the Planning, Property and Development Department. These costs are within the approved current budget and are considered to be immaterial in nature. There are no financial implications for the City of Winnipeg.

HISTORY

The Geomatics Branch of the Planning, Property and Development Department is proceeding with an application to open the east side of Overwater Cove, north of Hookway Crescent so identified on the attached copy of Misc. Plan No. 13692/1.

The proposed opening is City property (part Lot 7, Block 3, Plan 22442 WLTO) comprising part of a 1 foot wide control strip along the east side of Overwater Cove originally created by subdivision and rezoning applications DASZ 28/1986 and DASZ 39/1986. The control strips north and south of the subject opening have been dedicated as public rights of way via various short form subdivision applications. Control strips serve as a reminder to recover from the owner of the adjoining privately owned land a proportionate share of the cost of services installed by the original developer within the original subdivision. In this instance, the adjoining property owner has paid his share of the services directly to the City for reimbursement to the developer in the absence of a short form subdivision application, and it is encumbent on the City to process the subject opening application. All costs associated with the opening will be the responsibility of the Planning, Property and Development Department.
