HISTORY

The Geomatics Branch of the Planning, Property and Development Department is proceeding with an application to open the west side of Dieppe Road at its terminus south of Eldridge Avenue so identified on the attached copy of Misc. Plan No. 12346/1.

The City of Winnipeg acquired the subject property in November of 2004 via tax sale. On January 26, 2005, Council adopted the Report of the Standing Policy Committee on Property and Development dated January 10, 2005 which recommended that the property be declared surplus to the City's needs and made available for sale subject to no civic need being identified for the land. The Public Works Department has identified the need to open the subject property as public right of way. A portion of this property consists of a paved roadway providing the owner of the adjoining land at No. 672 Dieppe Road with driveway access to the public street. This opening will regularize the existing use of the land.

In order to monitor the potential development of the land immediately south of the opening, a 1 foot control strip is being retained by the City at the request of the Land Development Branch as shown on the sketch.

This report is submitted in accordance with the provisions of By-Law 7325/98, a by-law to amend procedures to allow certain street opening and closing applications to be submitted to the Executive Policy Committee for report to Council without the requirement to be reviewed by a Standing Policy Committee.
