RECOMMENDATIONS

1. That the McGillivray Boulevard – Waverley Street to Columbia Drive Widening Project budget be amended from $15,180,000.00 to $15,721,459.00.

2. That the approved 2008 Capital Budget amount for the McGillivray Boulevard Project be amended to include the transfer of funds, the additional Developer Funds, in the amount of $541,459.00 after they are deposited in the Future Services Account.

REASON FOR THE REPORT

Council approval is required to increase the Capital Budget for a Capital Project.

IMPLICATIONS OF THE RECOMMENDATIONS

The Developer Funding included in the 2007 and 2008 Capital for the McGillivray Boulevard – Waverley Street to Columbia Drive Widening Project collected to date totals $2,360,459.47. These funds have been deposited in the Future Services Account.

The additional Developer Funding is required to complete the McGillivray Boulevard – Waverley Street to Columbia Drive Project due to increased costs associated with property acquisition, relocation works on the properties required, and an additional traffic signal on McGillivray west of Kenaston Boulevard.

HISTORY

The 2007 Capital Budget adopted by Council on January 25th, 2007 included Developer Funding for McGillivray Boulevard – Waverley Street to Columbia Drive Widening Project in the amount of $1,500,000.00.

The 2008 Capital Budget adopted by Council on December 18th, 2007 includes additional funding for the McGillivray Boulevard – Waverley Street to Columbia Drive Widening Project in

the amount of $13,680,000.00. This included Developer Funding in the amount of $319,000.00. On April 29, 2009 Council confirmed the expropriation of the required properties for the McGillivray Boulevard – Waverley Street to Columbia Drive Widening Project. This project includes the widening and rehabilitation of McGillivray Boulevard from 300m West of Columbia Drive to Waverley Street and includes a multiuse path.

The McGillivray Boulevard – Waverley Street to Columbia Drive Widening Project also includes the extension of the multiuse path east of Waverley Street to Pembina Highway.

The project budget for the McGillivray Boulevard – Waverley Street to Columbia Drive Widening Project was a Class 4 estimate and did not include sufficient funding for costs associated with the acquisition of the required lands, such as on-site removal of underground storage tanks and roadway relocations on the properties. In addition, a traffic signal was added to the project West of Kenaston Boulevard. The funding shortfall is estimated to be $541,459.00.

The additional Developer Funding that has been collected must be transferred to the McGillivray Boulevard – Waverley Street to Columbia Drive Widening Project to provide adequate funds to complete the Project.
