REASON FOR THE REPORT

All costs associated with the lane opening are the responsibility of the applicant. There are no financial implications for the City of Winnipeg.

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the lane opening.

The approval of this application by the Public Works Department is subject to the Developer fulfilling his obligations with respect to Council's approval of development application DASZ 26/09 and lane closing application DAC 9/09.

The approval of this application by the Planning and Land Use Division is subject to the designation of the 3m wide strip of land immediately west of the lane opening as a parcel which is to be consolidated on title with the applicant's residual property.

HISTORY

The Planning, Property and Development Department has received an application from Mr. Larry Hamilton of Smith Carter Architects, representing the Winnipeg Regional Health Authority, to open the public lane so identified on the attached copy of Misc. Plan No. 13640/1.

The WRHA has also made an application under DAC 9/2009 to close the portion of the public lane identified on the sketch for inclusion into the development of a new 250,000 ft² facility comprising the Women's Hospital Redevelopment Project at the Health Sciences Centre Campus currently being processed under application DASZ 26/2009. Both these applications were approved by Council on January 27, 2010.

Both Public Service Reports for applications DAC 9/2009 and DASZ 26/2009 contain requirements for the applicant to enter into a Servicing Agreement with the City for the provision of a lane diversion opening onto Elgin Avenue. The purpose of this application is to address the dedication requirement and proceed with the lane opening. The original lane closing for DAC 9/2009 extends to the western limit of the planned subdivision boundary. The lane closing will require amendment in order to accommodate the opening as shown on the sketch.

This report is submitted in accordance with the provisions of By-Law 7325/98, a by-law to amend procedures to allow certain street opening and closing applications to be submitted to the Executive Policy Committee for report to Council without the requirement to be reviewed by a Standing Policy Committee.
