Report

Recommendation(s):

That City Council amend the License By-law No. 6551/95, with respect to massage therapists, by adding the following educational institutions to the list of registered educational institutions recognized under the License By-law, namely:

(a) Registered Educational Institutions
- I. Guangzhou University, Guangzhou, China; and
- II. Toronto School of Business, Toronto, Ontario; and
- III. The Swedish Institute, New York, New York; and
- IV. Shiatsu School of Canada Inc., Toronto, Ontario; and
- V. Okanagan Valley College of Massage Therapy Ltd., Vernon B.C.

(b) Regulatory Bodies

I. College of Massage Therapists of Ontario; and
II. College of Massage Therapists of British Columbia.

Reason for the report:

Council approval is required for any additions to the License By-law list of recognized educational institutions and regulatory bodies for massage therapy, thereby enabling applicants who have graduated from or are registered with these institutions to be licensed as a massage therapist in the City of Winnipeg.

History:

Council, at its meeting held March 24, 1993, adopted Clause 8 of Report "A" of the Committee on Finance and Administration dated March 1, 1993 with respect to amendments to the License By-law No. 6551/95 (4007/85) relating to the licensing of massage therapists. Effective September 1, 1993, massage therapists are distinguished from the general license category of "massagists" by providing evidence that the applicant has successfully completed the requirements of a training program in massage therapy and has received accreditation from a registered educational facility named in the By-law. That report recognized that additional schools over and above those initially identified likely existed and stated "minor amendments to the By-law may be necessary in future to address such situations".

Discussion:

Graduates from the above named institutions and/or persons registered with the above named regulatory bodies have made application to The City of Winnipeg for licensing as a "massage therapist". The applicants have supplied the necessary documentation indicating successful completion of a program of study in anatomy, physiology, kinesiology, biology, physical therapy and other related fields of study; or have provided the registration with the respective regulatory bodies. The educational institutions to be added are all recognized with the respective provincial or state governments.

Before recommending the addition of a school, the practice has been to review criteria with respect to both the school and the applicant, such as curriculum, program content, hours of study, other related training and work experience, membership in a massage therapy association, and so forth.

Before recommending the addition of a regulatory body, the practice has been to review criteria with respect to the admission of an applicant and the level of authority granted by the respective provincial or state governments.

This report is recommending that these schools and regulatory bodies be added to the list of recognized schools of massage therapy in the License By-law to enable the applicant to be licensed as a massage therapist.

Further reports of this nature will be submitted to Council in future to add to the list of registered educational facilities in the License By-law.
