RECOMMENDATIONS

1. That the proposed Land Lease Agreement for the area shown as 'Subject City Property' on Misc. Plan No. 12596/6 attached in favour of Sunstone Boutique Hotels Ltd. or nominee, for the construction and operation of a multi-storey boutique hotel, be approved in accordance with the proposed terms and conditions outlined in Schedule A attached, subject to the property being rezoned, and any other conditions deemed necessary by Legal Services to protect the interests of the City;

2. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

In accordance with the Council Order of July 18, 1979, the Standing Policy Committee on Property and Development shall authorize the leasing or rental of City properties for which the Director of Planning, Property and Development has no authority.

On March 24, 2004, Council established the Standing Policy Committee on Downtown Development. The Standing Policy Committee has jurisdiction over matters related to asset management, development control, land acquisition, land development and planning and land use in the area defined as Downtown.

In accordance with Council Order of September 9, 1987, leases of park land over five years in length are to be referred to Council for approval by at least two-thirds majority.

IMPLICATIONS OF THE RECOMMENDATIONS

- The Department has determined that there may be policy, regulatory implications to the lease of these lands as set out in the attached Schedule "A".
- Acceptance of the proposal and subsequent signing of the lease agreement commits the City to a long term contract (50 years).
- A hotel will be a conditional use in the Downtown Living Sector.

HISTORY

At its meeting on July 16, 2008 Council approved the Lease of the Alexander Dock/Harbourmaster sites to The Gatehouse Development Company LLP.

In January 2009, The Gatehouse Company advised it would not be moving forward with the intended project and the lease agreement was cancelled.

CentreVenture has continued to market this property as a site with specific redevelopment potential.

The proposed project consists of a multi storey boutique hotel, associated parking and the redevelopment of the Harbourmaster building into a restaurant or similar use. As rezoning is required to permit these uses, a public consultation process will be required as part of the rezoning application.

A large portion of the site is not developable (approximately 60%) as Manitoba Hydro has an easement for an underground transmission line and the City also requires an easement for an existing aqueduct.

The rental incentive incorporated into the lease agreement takes into consideration the costs the lessee will incur to extend the waste water services to the property and the responsibility to provide any and all flood protection to the subject property.

The benefits of entering into a long-term lease agreement with Sunstone Boutique Hotels Ltd. or nominee include:

- The Developer is experienced in completing successful projects in the immediate area (Sky Waterfront Condominiums)
- New construction estimated at $11 Million which, upon completion, will provide new revenue with Municipal Realty and Business Taxes for the City.
- Increasing the overall value of the City's property, and
- The project will provide additional hotel rooms near the Canadian Museum for Human Rights.
