REASON FOR THE REPORT

Council approval is required to amend capital budgets.

IMPLICATIONS OF THE RECOMMENDATIONS

The amendment to the adopted capital budget to recognize the RInC funding is required to allow the additional spending of eligible project expenses. These eligible expenses will then be submitted to the Government of Canada for reimbursement to the City.

The budget amendment is to increase existing program budgets to accommodate the additional projects that have been approved in the various RInC agreements. These additional projects were not included in the 2010 program adopted capital budgets.

HISTORY

The four projects were submitted to Western Economic Diversification (WED), RInC's agent, for consideration on the May 29, 2009 intake date. The projects for which Parks and Open Space Division applied to receive funds are typical of the type of work that would be performed within existing capital programs. During November and December of 2009 and into January of 2010, WED requested clarification of the scope of each project as well as confirmation of the City of Winnipeg's capital funds that would be available for this purpose. This information was submitted to WED and the following projects were assigned to receive RInC funds in January of 2010:

#8427 - Replacement of Playground Equipment in 17 Parks
#8488 - Replacement of Playground Equipment at Red River Community Centre
#8489 - Improvements to Soccer and Baseball Fields, including Grant Park Soccer
#9076 - John Blumberg Park Soccer Pitch Renovation

On January 19, 2010, Mayor Sam Katz signed the Federal Funding Agreement for Project # 8488. On January 21, 2010, Acting Deputy Mayor Gord Steeves signed the Federal Funding Agreement for Project #8427. On January 27, 2010, Deputy Mayor Justin Swandel signed the Federal Funding Agreement for Project #8489. Finally, on January 29, 2010, Deputy Mayor Justin Swandel signed the Federal Funding Agreement for Project #9076.

All four projects commenced construction in 2010 as stipulated, with the majority of the work being completed by the late Fall. The remaining sites under construction will be completed in 2011 as was approved in the terms of the RInC program.
