STANDING POLICY COMMITTEE ON

PROTECTION AND COMMUNITY SERVICES

QUESTION PERIOD

Minute No. 330
Councillor Vandal questioned why the smoking issue that was before the Standing Policy Committee on Protection and Community Services was not before Council for approval.

Councillor Steeves advised that the committee gave direction to the administration to bring the by-law directly to Protection and Community Services on May 10, 2011 and to prepare it based on the items that existed in the report. He concluded that it would be coming back and would be then going all the way up through the process to Council in May.
