REASON FOR THE REPORT

Council approval is required to set up and transfer capital budgets within a fiscal year.

IMPLICATIONS OF THE RECOMMENDATIONS

- WPS Canine Unit does not have a permanent kennel facility and has not had one since the fall of 2009.

HISTORY

The Winnipeg Police Service Canine Unit has been in existence for over 40 years. The members of this Unit and their Canine partners are a dedicated and valuable resource that provides continuous support for frontline police members. The Unit currently consists of 10 Police members and 14 canines.

The canines are trained in different elements of police work. In addition to patrol duties which include tracking and apprehension, the Canine Unit assists in areas of specialized detection, including explosives and narcotics. Throughout the existence of the Unit, the handlers and dogs have been credited with hundreds of arrests and the laying of hundreds of criminal charges.

The WPS Canine Unit is also looked to nationally and internationally for training expertise in all fields of canine policing. Each Canine is trained to exceptional standards and is worth approximately $40,000.00 when fully trained.

However, the Unit has been without appropriate accommodations for some time. As a unit in the Division 14 complement, for several years, the Canine Unit was housed at the police station located at 730 Pandora Avenue.

As the City of Winnipeg does not have a suitable building in its portfolio that can be converted into a Canine facility, temporary kennels were placed at EDS in November 2009. The accommodations constructed consist of three temporary kennels on the small green space within the secure parking area of the EDS. However, these facilities are inadequate and new facilities for the Unit are not included in the WPS budget until 2014.

There exists an immediate opportunity to provide a permanent facility that can accommodate all the current codes, technology and Police methodology, as well as the current gender demographics of the Police Service. It is vital that a proper facility be constructed to house and maintain the Canine Unit, allowing the WPS to address not only the immediate needs but also those associated to its evolution well into the future.
