COMMUNITY: City Centre Community

SUBJECT: To rezone the subject land from an "RMF-M" Residential Multiple Family District to a "C2" Commercial Corridor District

LOCATION: 590 Corydon AVENUE
LEGAL DESCRIPTION: SP Lot 8, Plan 27643

APPLICANT: Café Express Platea
590 Corydon Avenue
WINNIPEG MB R3L 0P2

OWNER: Kyung Sook Kim

RECOMMENDATION: Approval

SITE DESCRIPTION

The subject property zoned "RMF-M" Residential Multiple Family District is located on Corydon Avenue, between Daly and Nassau Streets, in the Earl Grey neighbourhood of the Fort Rouge East Fort Garry ward.

North: Residences zoned "RMFM" Residential Multiple Family District
South: Residence zoned "R1s" Residential Single Family District
East: Residences zoned "RMFM" Residential Multiple Family District
West: Residences zoned "RMFM" Residential Multiple Family District

BACKGROUND
The subject property received a use variance in 1997 which allowed the establishment of a restaurant without rezoning the property. The use variance included six conditions.

1. That the development be in accordance with plans submitted and identified as Exhibit "7" to File No. DAV 613/97C
2. The the variance be granted for the life of the building
3. That parking be provided for three (3) vehicles
4. That permanent restaurant seating be limited to thirty-two (32) seats
5. That the restaurant remain non-licensed with no frying or grilling permitted on the premises
6. That if any variance granted by this Order is not established within two (2) years of the date hereof, this Order, in respect of that variance, shall terminate

The applicant seeks approval to have these conditions removed, so that they may fry and grill food, establish a small patio, and be licensed.

At this time, given that the applicant seeks to intensify a use which was established under a use variance, the Winnipeg Public Service requested that the property be rezoned, to accurately reflect the existing land use.

If the rezoning is approved, the use variance, and its conditions, can be terminated.

DESCRIPTION OF THE PROPOSED DEVELOPMENT
The existing site is zoned "RMF-M" Residential Multiple-Family District and is presently being used as a restaurant.

The intent of the rezoning is to terminate previous conditions that were applied under a use variance and are onerous to the operation of the restaurant. (see Background) This would allow the restaurant to establish a small patio, to serve alcohol with food, and to fry and grill food.

ANALYSIS AND ISSUES
A. Context
The subject block of Corydon Avenue, which is between Daly and Nassau Street, includes a mix of residential and commercial uses, although the block is primarily residential at this time. Properties on the block which are currently zoned "C2" Commercial are shown in red on the map is Figure 2

B. Policies
OurWinnipeg (Complete Communities Direction Strategy)
Corydon Avenue is identified as a community mixed use corridor. Community mixed use corridors act as "main streets" for one or more neighbourhoods. In order to accommodate the city's anticipated increase in residential, commercial, and employment densities, Community Mixed Use Corridors will experience a fairly significant amount of change: including the enhancement of existing corridors, like Corydon Avenue.

By encouraging more compatible mixed use, the proposed rezoning complies with Complete Communities.

C. Corydon Osborne Neighbourhood Plan

The City is currently developing a Secondary Plan for Corydon Avenue and surrounding neighbourhoods. The Secondary Plan will provide the opportunity to promote mixed-use redevelopment in a context sensitive manner, to proactively address the pressures for growth and change that will occur in the neighbourhood and additionally due to the presence of the rapid transit corridor, to identify and prioritize appropriate infrastructure upgrades and improvements to facilitate this growth, and to promote more sustainable forms of development and urban form and the concepts of sustainability.

The City has completed initial consultations with the community to determine the plan vision and key issues for the area. The next step in this process will be the development of a plan draft and further public consultation to present the draft plan for public consultation and feedback.

One of the items that the plan will address are issues of appropriate land use, density, and built form along the Corydon community mixed use corridor.

The subject rezoning is not out of step with the initial feedback received during the consultation process; namely that Corydon Avenue should function as a mixed use corridor from Confusion Corner to Harrow Avenue.

Use variance

The current conditions from the use variance are extremely onerous and not required, given that Corydon Avenue is a mixed use corridor.

With that said, in light of the fact that Corydon Avenue is governed by a Planned Development Overlay (PDO-1 Neighbourhood Main Street), it is appropriate for the subject property to also be governed by the same requirements as the PDO.

However, given that the subject property is not within the current PDO boundaries, the PDO conditions do not automatically apply.

One option to address this is that the Winnipeg Public Service could make application to amend the PDO boundaries to include this property. However, given that the boundaries are likely to change at the completion of the Corydon Osborne Neighbourhood Plan, this is not recommended.

A second option is to include a zoning agreement which replicates the PDO-1 Neighbourhood Main Streets. With this option, the subject property will have the same regulations as commercial properties on Corydon Avenue which are subject to the PDO-1. This is the recommended course of action.

RECOMMENDATIONS
The Planning and Land Use Division recommends approval for the following reasons:

- The proposed use is not a significant change in the function or intensity of use that is occurring on the property.
- The proposed rezoning is a better reflection of the existing land use.
- The rezoning is compatible with the area and will not have an adverse impact on adjoining properties.
