REPORT SUMMARY

- The applicant is proposing to rezone the 7,500 square foot lot from RR5 to R1-M to allow for the future development of a detached single-family home on the lot.
- The Urban Planning Division recommends supporting this application.

SITE DESCRIPTION

- The subject property is located near Elsey Road, south of Aldgate Road in the River Park South neighbourhood of the St. Norbert Ward.
- The property is undeveloped and is currently in the process of being registered at Land Titles as Lot 2 Block 1 Deposit No. 1265-2011 (under DASZ 9/2011), and will eventually be registered under a different lot, block, and plan number once DASSF 566/11 comes into force and effect. The current description on deposit at Land Titles for the property under DASSF 566/11 is Lot 12 Block 1 Deposit No. 1321-2011.
- The site is **approximately 7,500 square feet in area.**
- The property is zoned RR5 and is located within the Areas of Stability – Recent Communities Policy Area under the Complete Communities Direction Strategy.

Figure 1: Aerial photograph showing approximate area of subject property and surrounding area (2009)

SURROUNDING LAND USES & ZONING

- The site is surrounded by undeveloped land that is currently zoned RR5, but in the process of being rezoned to R1-M under DASZ 9/2011.
- It should be noted that the actual rezoning of the surrounding properties will occur in phases when a plan of subdivision which defines blocks and lots for that phase (which is typically done through a DASSF or short-form subdivision) is registered in the Winnipeg Land Titles Office and a Zoning Agreement for that phase is registered. The associated DASSF for the subject property is DASSF 566/2011.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to rezone the 7,500 square foot lot from RR5 to R1-M to allow for the future development of a detached single-family home on the lot.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- Under the *Complete Communities Direction Strategy* the site is within the Areas of Stability – Recent Communities policy area. Key relevant policies guiding development within Areas of Stability include:
    - Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.
    - Focus housing growth to areas that have municipal service capacity to support intensification, in addition to commercial and recreational amenities.

ZONING

"RR5" Rural Residential 5 District

- The RR5 district is intended to provide areas for large-lot rural residential development along with limited agricultural uses. The RR5 district requires: a minimum lot width of 25 feet, a minimum lot area of 5 acres, side yards of 25 feet, a front yard of 25 feet, and a rear yard of 25 feet. The maximum building height is 35 feet and the maximum lot coverage is 30%.

"R1-M" Residential Single-Family Medium District

- The R1-M district requires: a minimum lot width of 25 feet, a minimum lot area of 3,500 square feet, side yards of 4 feet, a front yard of 15 feet, and a rear yard of 25 feet. The maximum building height is 35 feet and the maximum lot coverage is 45%.

LAND USE BY-LAW

Rezoning

- The subject lot is zoned RR5. As the lot is less than 5 acres in area, the lot is unbuildable under the Zoning By-Law. The lot meets the dimensional standards of the R1-M zone. As such, the applicant would like to rezone the lot to R1-M in order to create a buildable single-family lot.

COMPATIBILITY WITH THE SURROUNDING NEIGHBOURHOOD

- The subject property was proposed as a PR1-zoned connection under the original application DASZ 9/2011. However, it was determined by the Riel Community Committee and ultimately Council that this connection was not required. As such, the property was not rezoned and the underlying zoning – RR5 – remained in place.
- The applicant is now proposing to rezone the lot to R1-M in order to create a buildable lot for a single-family home.
- All of the lots surrounding the subject property are zoned R1-M.

LAND DEDICATION

- When a developer rezones and/or subdivides a parcel of land, they are required to put in an application with the City of Winnipeg.
- As a condition of rezoning or subdivision, a developer is required to contribute a portion of the land to be developed to the City for parks purposes.
- The amount of land is not less than 10%.
- The developer is to provide land or 'cash in lieu' as determined by the Planning, Property and Development Department.
- The City is requesting cash in lieu for this application.

RECOMMENDATION

The Urban Planning Division recommends **approval** for the following reason:

- All of the lots surrounding the subject property are zoned R1-M.
