Subject: Lord Roberts CIGP

Lord Roberts Community Centre is seeking 100% support from their CIGP application for a portion of this project. The work completed was part of a much larger project and was strongly needed and recommended based on facility inspections conducted by the City of Winnipeg. The work was also part of their plan to make their centre more accessible, safe, and allow them the opportunity to deliver programming and have user groups rent their facility which in turn would provide them funding to help them be self sustainable in the future.
