Detailed Project Description

Attached on separate sheets or in the space below, provide a detailed description of the project which addresses the selection criteria. Please include a description of the project objectives and how the project will accomplish those objectives, a detailed scope of work and, if possible, preliminary project plans or drawings.

The Broadway Neighbourhood Centre (BNC), Inc. is a not-for-profit organization committed to providing the highest quality recreational, social, health, educational, and employment training ~~programs and services to all ages. The primary focus of the Centre is the local neighbourhood~~ and the Centre responds to the issues, needs and strengths of the neighbourhood through specialized, flexible and innovative solutions.

The BNC is committed to serving the community in which it operates; it is committed to actively working to strengthen its ability to serve, and to work with community residents to grow stronger. ~~Our vision is committed to providing the highest quality recreational, social, health, educational,~~ and employment training program and services to all ages.

This project is for the basement floor of the Centre. The previous floor was old, full of cracks, and ~~had traces of asbestos. The basement of the BNC is primarily used for one of our biggest and~~ prominent program: Just TV.

Just TV provides youth with opportunities to express themselves through multimedia in a safe, fun, creative environment as an alternative to negative influences such as drugs, gangs and violence. Participants engage in all facets of the audio and video industry and are required to make a video ~~based on their interests, experiences, activities, and lives including a body of work aimed at dis~~suading young children from drugs, crime and gang activity.

We wanted to create a more inviting environment for our youth who attends the program and make it a more enjoyable experience for all who use our facility. With new floors, we can attract new clients and participants to the program by making us look more professional and competent. Along with the ~~newly painted walls, we hope to put in black tiles with green accent tiles for a sleek and modern~~ look to accompany our professional studios.

BNC's programs' success has been such that other non-profits and tri-level government agencies look to us as a model and a home base for their own programming. All of our programs are free of charge for youth in and around the area. We have a daily youth drop-in program to engage the youth from Girls ~~Group to Running Club, there's always something for everyone here at the BNC.~~
