ANALYSIS AND ISSUES

DRAFT COMPLETE COMMUNITIES DIRECTION STRATEGY

- Under the *Complete Communities Direction Strategy* the proposed development is within the Areas of Stability – Recent Communities policy area. Key relevant policies guiding development within Areas of Stability include:
    - Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.
    - Support Complete Communities by ensuring diverse and high quality housing stock.
    - In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.
    - Support the subdivision of a parcel of land into two or more lots when it is done in a context sensitive manner.

ZONING

‘R1-E’ Residential single Family Estate

- The Residential Single-Family (R1) district is intended to accommodate primarily single-family residential development in lower-density neighbourhoods. The ‘R1-E’ district requires: a minimum lot width of 25 feet, a minimum lot area of 20,000 square feet, 10 foot side yards, a front yard of 30 feet, and a rear yard of 25 feet. The maximum building height is 35 feet.

‘R1-L’ Residential Single Family Large

- The Residential Single-Family (R1) district is intended to accommodate primarily single-family residential development in lower-density neighbourhoods. The ‘R1-L’ district requires: a minimum lot width of 25 feet, a minimum lot area of 5,500 square feet, 4 foot side yards, a front yard of 20 feet, and a rear yard of 25 feet. The maximum building height is 35 feet.

LAND USE BY-LAW

Rezoning

- The applicant intends to rezone proposed Lot 1 to ‘R1-L’ Single Family Residential Large to allow the development of a new single family dwelling.

Variances

- There are no variances associated with this application.

COMPATIBILITY WITH THE SURROUNDING NEIGHBOURHOOD

- The subject lands front onto Haney Street and back onto Sammons Crescent. Proposed Lot 2 will remain zoned ‘R1-E’ and will remain larger in width, area and setback with the adjacent ‘R1-E’ single family lots to the north.
- The proposed Lot 1 will front onto Sammons Crescent and will be zoned ‘R1-L’ Residential Single Family Large. Lot 1 is compatible in size to the existing ‘R1-L’ lots fronting onto Sammons Crescent.

- The proposed development is consistent with the relevant *Complete Communities* policies as it allows for moderate change that is consistent with the existing built form and character of the area.

SUBDIVISION SERVICING COSTS

The City is obliged under Development Agreement AG 37/85 to endeavor to recover from the owner(s) of lands abutting the buffer control strip fronting this property, a proportionate share of the value of services installed and improvements made by the others in Sammons Crescent. The City is required to collect and pay recoveries for the services directly to the Developer under terms of the AG 37/85 agreement. Also, pursuant to the City's Development Agreement Parameters, certain regional servicing costs are applicable to the subject land.

As information therefore, in addition to the normal processing fees, requirements and payments, payment for the following items will be required prior to release of the Subdivision mylars.

- Fronting Services (watermain, wastewater sewer, lateral land drainage sewer, pavement, street lighting)
- Charleswood Transportation Levy
- Charleswood Area C regional land drainage trunk (TSR) charge

LAND DEDICATION

- When a developer rezones and/or subdivides a parcel of land, they are required to put in an application with the City of Winnipeg.
- As a condition of rezoning or subdivision, a developer is required to contribute a portion of the land to be developed to the City for parks purposes.
- The amount of land is not less than 10%.
- The developer is to provide land or 'cash in lieu' as determined by the Planning, Property and Development Department.
- The City is requesting cash in lieu for this application.

RECOMMENDATION

The Urban Planning Division recommends **approval** for the following reasons:

- Increasing residential density and helping to achieve a compact urban form are key policies of *OurWinnipeg* and the *Complete Communities Direction Strategy* that are fulfilled by this application.
- The scale and form of the development is consistent with the neighbouring R1-zoned properties.
- The creation of this new residential infill lot, (Lot 1) does not preclude the development of the adjacent lands to the north.
