DATE: June 26, 2012
FILE: DAZ 213/2012
RELATED FILES:
COMMUNITY: City Centre Community
NEIGHBOURHOOD #: 1.106

SUBJECT: To rezone the subject land from an "R1-S" Residential Single-Family District to an "R2" Residential Two-Family District

LOCATION: 589 Jessie Avenue
LEGAL DESCRIPTION: LOT 16 PLAN 27643 33/34 ST B

APPLICANT: Daniel MacGibbon (Studio Walter Incorporated)

OWNER: Stephen Swail

RECOMMENDATION: Approval

SITE DESCRIPTION
The subject property, which is zoned "R1-S" Residential Single-Family District, is located on Jessie Avenue, between Daly Street North and Nassau Street North, in the Earl Grey neighbourhood of the Fort Rouge – East Fort Garry ward.

North: Multi-family residences zoned "RMF-M" Residential Multi-Family District
South: Residences zoned "R1-S" Residential Single-Family District
East: Residences zoned "R1-S" Residential Single-Family District
West: Residences zoned "R1-S" Residential Single-Family District

DESCRIPTION OF THE PROPOSED DEVELOPMENT
The applicant seeks approval to rezone the subject property to an "R2" Residential Two-Family District in order to construct a duplex.

Reason for application
In order to construct a duplex, the property must be rezoned from the current "R1-S" Residential Single-Family District to an "R2" Residential Two-Family District

ANALYSIS AND ISSUES
A. Policies
i. OurWinnipeg (Complete Communities Direction Strategy)
This portion of the Earl Grey neighbourhood is designated as an Area of Stability. Policies which are relevant to this application are as follows:

1) Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character, and built form

2) Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments

3) In order to meet the full life cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, and townhouses.

4) Provide clarity and promote compatibility between existing developments and new developments through design and development standards, such as creation of *Infill Development Guidelines for Multiple-Family Developments in Low Density Neighbourhoods*

The proposed rezoning is consistent with OurWinnipeg and The Complete Communities Direction Strategy

B. Context
While predominantly single-family residential, the Earl Grey neighbourhood contains a variety of different housing types and forms, including duplexes, several apartment buildings and a care home. The subject block of Jessie Avenue, between Daly and Nassau Streets, currently has five (5) duplexes, according to City records:

588 Jessie
593 Jessie
596 Jessie
600-602 Jessie
612 Jessie

C. Urban Design
As a result of a neighbourhood consultation/open house which occurred on Wednesday, June 20th, the applicant has indicated that there are several changes to the proposed design – compared to the plans which were submitted with the application. (See Appendix A for a rendering of the modified development proposal). The changes are as follows:

1. They have lowered the roof on the front portion of the building to 31 feet and the rest of the roof to 33 feet.

2. They have added a peak to both roofs, which is more consistent with the neighbourhood built form.
3. They have rounded the roof and deck details to pick up on the aesthetics of neighbourhing homes.
4. They have added a projecting roof to the first level; similar to the more traditional front porch/vestibule look of other homes in the neighbourhood
5. They have changed the colour scheme from green and black to a dark grey (wood) lap siding with white panel on the centre mass, and wood accents on the roof soffits and deck.

Building setbacks are being addressed through the associated variance report (DAV 12-118963/D).

D. Conditions
While the subject property is appropriate for a duplex, the subject block is primarily zoned single-family residential and a multi-family dwelling (3 units and up) would be inconsistent with the current zoning and density that exists mid-block on the subject block. Consequently, it is recommended that the property be limited to a two-family dwelling through a zoning agreement.

Accordingly, if a future property owner was to seek approval for a multi-family dwelling, it would require a zoning amendment agreement and a public hearing at City Centre Community Committee rather than a conditional use and public hearing at the Board of Adjustment.

Plan Approval
Given that the development plans have changed and that new plans have not been submitted to the City at the time of this writing, it is recommended that final plans be approved by City Centre Community Committee and the Director of PP&D, prior to the issuance of permits. It is expected that the final design will be in substantial conformance with the revised plans that were shown to the community.

RECOMMENDATIONS
The Planning and Land Use Division recommends approval for the following reasons:

- The rezoning is consistent with OurWinnipeg and Complete Communities Direction Strategy
- There are currently five duplexes on the subject block
