STANDING POLICY COMMITTEE ON PROTECTION AND COMMUNITY SERVICES

QUESTION PERIOD

Minute No. 98
In reference to city owned arenas, Councillor Mayes asked that updated facility condition index numbers be provided at the earliest possible convenience.

Councillor Fielding noted that the facility indexes were done through building facilities maintenance and were reviewed every five years; with the last being done in 2007 and the next scheduled for 2013. He advised that some facilities were in a crisis situation, there were some imminent projects happening now, and it made sense to have the index done in the first quarter of the year.
