COMMUNITY: City Centre Community
NEIGHBOURHOOD #: 1.106

SUBJECT: To rezone the subject land from a "R1-S" Residential Single-Family District to an "R2" Residential Two-Family District

LOCATION: 582 Jessie
LEGAL DESCRIPTION: Lot 19 Blk 25 Plan 208

APPLICANT: Studio Walter Incorporated

OWNER: 6491392 Manitoba Ltd.

RECOMMENDATION: Approval

SITE DESCRIPTION

The subject property, which is zoned "R1-S" Residential Single-Family District, is located on Jessie Avenue, between Daly and Nassau Streets, in the Earl Grey neighbourhood of the Fort Rouge – East Fort Garry ward.

North: Residences zoned "R1-S" Residential Single-Family District
South: Residences zoned "R1-S" Residential Single-Family District
East: Residences zoned "R1-S" Residential Single-Family District
West: Residences zoned "R1-S" Residential Single-Family District

DESCRIPTION OF THE PROPOSED DEVELOPMENT

The applicant seeks approval to subdivide the subject property into two – 25 foot wide lots and rezone them to an "R2" Two-Family Residential District, in order to construct two duplexes.

Reason for application
In order to construct duplexes, the properties must be subdivided and rezoned from the current "R1-S" Residential Single-Family District to an "R2" Residential Two-Family District.

ANALYSIS AND ISSUES

OurWinnipeg/Complete Communities
A. Policies
i. OurWinnipeg (Complete Communities Direction Strategy)
This portion of the Earl Grey neighbourhood is designated as an Area of Stability. Policies which are relevant to this application are as follows:

1. Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character, and built form

2. Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments

3. In order to meet the full life cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, and townhouses.

4. Provide clarity and promote compatibility between existing developments and new developments through design and development standards, such as creation of *Infill Development Guidelines for Multiple-Family Developments in Low Density Neighbourhoods*

The proposed rezoning is consistent with OurWinnipeg and The Complete Communities Direction Strategy

B. Context
While predominantly single-family residential, the Earl Grey neighbourhood contains a variety of different housing types and forms, including duplexes, several apartment buildings and a care home. The subject block of Jessie Avenue, between Daly and Nassau Streets, currently has five (5) duplexes, according to City records:

588 Jessie (25 foot wide lot)
593 Jessie (37 foot wide lot)
596 Jessie (25 foot wide lot)
600-602 Jessie (48 foot wide lot)
612 Jessie (25 foot wide lot)

In addition, the City recently approved a rezoning for a duplex at 589 Jessie Avenue (DAZ 213/2012), which is a 25 foot wide lot, and a subdivision and rezoning at 604 Jessie Avenue, to allow the subdivision of a 50 foot lot into 25 foot lots and to permit a duplex on each lot.

Lot split
The applicant is proposing to split the subject 50 foot wide lot into two 25 foot wide lots. On the subject block of Jessie Avenue, there are currently 16- 25 foot wide lots out of a total of 30 lots.[1] Consequently, the proposed lot sizes are consistent with the established pattern of the neighbourhood.

C. Urban Design
Draft Infill Development Guidelines
Below are the applicable guidelines for this project from the *Draft Infill Guidelines* and a discussion of how they have been addressed by the applicant.

Guideline #1
2.2.2 iii) Establish rear yard setbacks that are consistent with the pattern of the neighbourhood

The principal reason for the rear yard setback is to allow for privacy and sunlight penetration at the rear of properties.

It should be noted that on this block, most properties have setbacks of ±50 feet or more. In that way, the proposed development is not consistent with existing rear yard setbacks.

With that said, the Zoning By-law requires a 25 foot rear yard setback and the proposed development complies with this requirement.

Guideline #2
2.2.2 iv) Front yard setbacks should respect the established street pattern by providing setbacks typical of the neighbourhood

The proposed front yard setback is 20 feet, which complies with the front yard alignment set by the Winnipeg Zoning By-law for this property.

Under the Winnipeg Zoning By-law, the front porch is allowed to project an additional 5 feet into the required setback.

Guideline #3
2.2.3 i) The main building façade should be oriented to face the public street and encourage opportunities for informal surveillance and human activity on the street

The proposed developments orient their main entrances to Jessie Avenue.

Guideline #4
5.2 i) Massing and height of new buildings should take into consideration the area context

Height
The Zoning By-law allows a maximum height of 35 feet, which is measured from the mid-point of a sloped roof. Consequently, the actual height may be several feet higher than this, depending on the slope of the roof.

With that said, both properties will be under the maximum allowable height. They will both be 30 feet to the highest point, with a pitched roof in the front and rear that will be several feet lower than this.

---

[1] When the subdivision of 604 Jessie is completed, there will be 18 – 25 foot wide lots

The pitched roof is consistent with the aesthetic of the neighbourhood and the overall design is similar to other properties on the block, as well as the two duplexes that were recently approved at 604 Jessie Avenue.

Massing
The design, because of the attached garage at the rear, creates a long wall abutting the adjoining properties. However, this type of massing is permitted under the Winnipeg Zoning By-law, given that the rear yard setback is being met.

To mitigate the impact of the long walls, the side elevations are being broken up with changes in wall plane.

D. Conditions
While the subject property is appropriate for a duplex, the subject block is primarily zoned single-family residential and a multi-family dwelling (3 units and up) would be inconsistent with the current zoning and density that exists mid-block on the subject block. Consequently, it is recommended that the property be limited to a two-family dwelling through a zoning agreement.

Accordingly, if a future property owner was to seek approval for a multi-family dwelling, it would require a zoning amendment agreement and a public hearing at City Centre Community Committee rather than a conditional use and public hearing at the Board of Adjustment.

Plan Approval
It is recommended that final plans be approved by City Centre Community Committee and the Director of PP&D, prior to the issuance of permits. It is expected that the final design will be in substantial conformance with the revised plans that were shown to the committee.

E. Public Consultation
The applicant indicated that they held an open house at their office on December 12, 2012, in which no one attended. They indicated that they are also planning to meet with a few of the immediate neighbours.

RECOMMENDATIONS
The Planning and Land Use Division recommends approval for the following reasons:

- The rezoning is consistent with OurWinnipeg and Complete Communities Direction Strategy
- There are currently five duplexes on the subject block as well as one lot that was recently rezoned for a duplex (589 Jessie) and one lot that was split to permit two duplexes (604 Jessie)
