STANDING POLICY COMMITTEE ON PROTECTION AND COMMUNITY SERVICES

QUESTION PERIOD

Minute No. 182
Councillor Sharma asked what the next steps would be to get the Police Board up and running, to which Councillor Fielding replied that appointments should have been made by now, though the process was taking an extra month, with extensive background checks being performed on those being appointed. Following these checks, the next step would be to hire an Executive Director.

Councillor Mayes inquired what could be done to get a comprehensive look at the different City-owned arenas. Councillor Fielding answered that a number of agreements were forthcoming, and though the process had been long, the agreements coming forward would make sense for taxpayers and other levels of government.

Councillor Mayes asked if Facility Condition Index (F.C.I.) numbers for city owned arenas more recent than the 2007 numbers could be provided. Councillor Fielding added that the process was done every five years, and seeing that it had been over five years, the process was underway, or would be starting over the next little while.
