RECOMMENDATIONS

1. That the City-owned property located south of Bower Boulevard, south of Grant Avenue and east of Shaftesbury Boulevard, shown as Parcel "A" and Parcel "B" on the attached Misc. Plan No. 14397, be declared surplus to the needs of the City.
2. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

- Council approval is required to declare the subject City owned property surplus to the needs of the City.
- Approval of at least two third of the members of Council is required to declare property designated as or acquired for Park purposes as surplus to the City's requirements.

IMPLICATIONS OF THE RECOMMENDATIONS

- There are no regulatory or human resource implications with this report.

- There are no direct financial implications associated with this recommendation.

- The City's standard terms and conditions of sale will include provisions to protect the City's interests in the event that environmental contamination is discovered.

- The Planning, Property and Development Department intends to sell a portion of Parcel "A" to each of the adjoining property owners (St. Paul's High School and The Pembina Trails School Division) for consolidation with their existing property.

- The Planning, Property and Development Department intends to market Parcel "B" for sale through a public offering.

HISTORY

- Parcel "A" as shown on Misc. Plan No. 14397 was formerly part of Bower Boulevard, which was closed on October 31st, 1990 by By-Law #5534/90. Parcel "B" as shown on Misc. Plan No. 14397 is Public Reserve.

- In September 2012, St. Paul's High School contacted the Department, inquiring to lease a portion of the land shown as Parcel "A" on Misc. Plan No. 14397, for fenced storage of topsoil, yard supplies, etc. in conjunction with the maintenance of their adjacent property.

- The Department advised instead that it would support the sale of a portion of Parcel "A" as shown on Misc. Plan No. 14397/1 to each of the adjacent owners, for consolidation each with their existing property. The two adjoining property owners were contacted by the Department and have indicated their interest in purchasing ½ of the Parcel "A" for consolidation with their existing property.

- Parcel "A" was circulated to all City Departments and no Civic need was identified. Water and Waste Department advises it requires an easement over the northerly 20 metres of Parcel A for a catch basin and fire hydrant.

- Parcel "B" was circulated to all City Departments and no Civic need was identified. The Area Planner advised support of very low density detached bungalow development with access only off Shaftesbury Boulevard. Water and Waste advises that sewer and water services would need to come from Bard Place, and a feasibility study would be required by the developer. Also, any changes to the existing grading would require submission and approval of a lot grading plan to Water and Waste.

- The Ward Councilor was consulted and concurs with the intentions of the Department.
