Our tractor is 26 years old and in need of more than $7,000 worth of repairs. Parts for the tractor are unobtainable and parts cannot be fabricated. We have also been advised that the engine is likely to blow with further use, making the equpiment potentially hazardous. The tractor is simply at the end of its life.

We use our tractor to clear snow around the club, off the rinks, out of the parking lot and during heavy snowfalls, we will even use it to clear the snow off of local seniors' driveways.

We are hoping to buy a gently used tractor, and the one we have our eye on will cost the club approximately $12,000. The tractor also comes with a lawn mowing attachment, which would replace our riding lawn mower, which is also nearing the end of its useful lifespan.

The current tractor will be sold for parts/scrap metal.
