ANALYSIS AND ISSUES

COMPLETE COMMUNITIES DIRECTION STRATEGY

- Under the *Complete Communities Direction Strategy* the proposed development is within the Areas of Stability – Recent Communities policy area. Key policies guiding development within Areas of Stability include:
    - Support a mix of commercial services and employment uses that serve the local community
    - Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complementary to the existing scale, character and built form.
    - Promote a quality public realm with a high level of accessibility to community services and amenities and opportunities for gathering and social interaction.

ZONING

The subject property is zoned "C2" Community Commercial District and – *is intended to accommodate more intensive commercial sites that do not have a local or neighbourhood orientation. The district is intended to include attractive commercial, institutional, recreational, and service facilities needed to support the surrounding neighbourhoods and the broader community. C2 districts are generally located along collector streets, at arterial/collector intersections, or along portions of arterial streets with relatively shallow lots.*

COMPATABILITY WITH SURROUNDING NEIGHBOURHOOD

Clause Four (4) – Restricted uses

- Since this Zoning Agreement was written and adopted, the Zoning By-law has been updated. The restricted uses of the Zoning Agreement were written in language that comes from the previous Zoning By-law (6400/94).
- The Urban Planning Division believes a private wine sales store or MLCC would be an appropriate use on this site and has decided to recommend approval to allow the use on this site. Of note is that “beer sales” and “liquor sales” are no longer specific uses in the current zoning by-law; they now fall under the category of “retail services”.

Clause 6 – Sign Height

- The Urban Planning Division is recommending rejection for the request to permit free standing sign heights of 35 feet. Currently, under the Zoning Agreement, the site is permitted free standing signage of 25 feet.
- Changes from Zoning By-law 6400/94 to the current Zoning By-law (200/2006) resulted in reductions of permitted sign heights in all zoning districts. “C2” properties were permitted 30 feet under the previous zoning By-law and are now permitted 20 feet under the current zoning By-law.
- Regardless of whether or not the Zoning Agreement is amended to permit free standing sign height of 35 feet a variance application would still be required to permit a sign height higher than 20 feet in the “C2” zoning district.

Clause 11 – Hours of Operation

- The Urban Planning Division is recommending approval to delete the clause limiting hours of operation on the site between 6:00 am and 11:00 pm.

- The applicant has indicated that potential tenants of the site may require 24 hour operation, including a 24 hour fitness centre and convenience store. Other uses, such as a restaurant would enjoy flexible operating hours that would allow them to remain open later than 11:00 pm.
- Not knowing for certain whether or not these uses will be introduced to the site, the Urban Planning Division still believes that the clause limiting hours of operation may not be necessary provided the following of considerations:
    - The subject site is adjacent to a multi-family development on the east, a rail line and vacant land to the south, Lagimodiere Blvd. to the west and single family dwellings to the north. The distance separating the nearest residential building to the commercial buildings is approximately 315 feet.
    - As a requirement of the Zoning Agreement, plan approval is necessary before any development permits can be issued.
    - Zoning By-Law 200/2006 includes buffering requirements to help reduce incompatibilities between commercial and residential uses.

RECOMMENDATION

The Urban Planning Division recommends **approval in part** for the following reasons:

- The proposed use for the site is consistent with the objectives of the Complete Communities direction strategy. Namely, the proposal will provide new retail opportunities that will serve the local community.
- The condition of plan approval is to remain and Zoning By-Law 200/2006 includes buffering requirements to help reduce incompatibilities between commercial and residential uses.
