Subject: Re: Responsible Pet Ownership By-Law

July 8, 2013

Dear Mr.Gameiro,

We are requesting an addition to the noise/livability/pet ownership by-law regarding noises emanating from the Macaws.

Persons at back of and adjacent to our property (no back lane)have 2 full grown Macaws and another different tropical bird. These birds are in and out of their outdoor cages whether permitting.

We also like to be out in our backyard enjoying the summer. It's impossible to enjoy our backyard because of the loud noises made by the said birds. They shriek, squeak, squawk,scream, whistle and make other loud echoing calls. We get the full blunt because the backyards are immediately adjacent to one another.

As tax payers and in the spirit of the livability by-law we request these exotic jungle birds be included in either the noise, livability or responsible pet ownership by-law.

Please forward the above e-mail to the following people:
1). The Executive Policy Committee - Meeting July 10th
2). Winnipeg City Council - Meeting July 17th
3). COO Animal Services - Mr.Leland Gordon
4). Mr. Daniel Vandall - St. Boniface Ward

I would like to cancel a scheduled appearance by me, Sylvia Wise at The Executive Policy Committee meeting on July 10th, 2013.

Sincerely,
Sylvia Wise
