HISTORY

At its meeting on April 6, 1995 the Standing Policy Committee on Protection, Parks and Culture approved a proposal by the Alpine Climbing Club of Canada, St. Boniface Section to establish and operate an Ice Climbing Tower in Whittier Park. .

During the period from 1995 and the present the Alpine Climbing Club of Canada, St. Boniface Section constructed the Climbing Tower, maintained the structure and provided programming at its sole expense.

The Climbing Tower is approximately 60' tall consisting of three 70 ft. long wood poles embedded in the ground in a triangular position with diagonal and horizontal bracing. It is enclosed by a chain link fence around the perimeter of the site. There is a temporary storage trailer to support onsite activities. During the winter season, ice is formed on the exterior of the structure to create alpine climbing conditions for local amateur ice climbers.

At its meeting held on April 27, 2005, Council approved By-law 89-2005 for the subject property which provides an exemption from municipal realty taxes for the subject occupancy.

By letter dated June 6, 2007, Mr. D. Cormie, P.Eng., provided a structural evaluation of the Climbing Tower and determined under seal that it is in excellent condition and no areas of deficiency were observed.

The Agreement between the City of Winnipeg and the Alpine Climbing Club expired December 31, 2010. The Club informed the City of their desire to initiate a new lease agreement. The Planning, Property and Development Department, Real Estate Division prepared new Terms and Conditions for the Agreement as per this request.
