STANDING COMMITTEE ON FISCAL ISSUES

QUESTION PERIOD

268 - In reference to additional appropriations made in 2002 of $500,000.00 provided to the Winnipeg Police Service and approximately $350,000.00 provided to the Planning, Property and Development Department, Councillor Steek questioned if there had been corporate reductions to offset the additional appropriations.

Councillor Clement noted that an extra appropriation was approved last year relative to the Planning, Property and Development Department housing program and inspectors, but stated that there had not been any new appropriations this year associated with any of the clauses before Council at the present meeting.

Councillor Steek requested the Chairperson to ask the Administration what additional corporate reductions had been made, or would be made for 2002, to which Councillor Clement agreed to do so.
