RECOMMENDATIONS

1.) **That By-law No. 86/2013 (SPA 1/2013), a proposal to amend the Complete Communities Direction Strategy By-law No. 68/2010 by re-designating the lands shown on Attachment 1 from 'General Manufacturing' to 'New Communities', be forwarded to Council for Second and Third Reading.**

REASON FOR THE REPORT

On July 17, 2013, council gave First Reading to By-law 86/2013 (SPA 1/2013) which proposes to amend the Complete Communities Direction Strategy By-law (*Complete Communities*) as indicated above. The proposed *Complete Communities* amendment, Precinct 'T' Plan and related subdivision and rezoning (DASZ 30/13) applications are required in order for the applicant to proceed with the establishment of a primarily residential development.

Under section 278 of *The City of Winnipeg Charter*, the hearing required in respect of an amendment to a secondary plan such as *Complete Communities* may be combined with other hearings in respect to the same proposed development. Executive Policy Committee has exercised this option and has scheduled a hearing to consider the *Complete Communities* amendment (SPA 1/2013), the Precinct 'T' Plan application (SP 3/2013) and the subdivision and rezoning application (DASZ 30/13) together.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, the 'General Manufacturing' designation will be removed and the subject land will be re-designated as a 'New Community' in the *Complete Communities* By-law. This re-designation of the subject land will allow for the acceptance of Precinct Plan 'T' and DASZ 30/13.

DISCUSSION

The subject site is approximately 120 acres of vacant land located to the south of Jefferson Avenue and west of King Edward Street. The lands are currently designated 'General Manufacturing' in *Complete Communities* and zoned A – Agricultural.

The lands to the north and east of the subject site are designated 'New Communities' in *Complete Communities*, while the lands to the south and west are designated 'General Manufacturing'.

A subdivision and rezoning application (DASZ 30/13) and a secondary plan application (SP) for the creation of a new Precinct Plan (Precinct 'T') for the subject site have been submitted concurrently with this application to permit the establishment of a predominantly residential development.

Analysis suggests that there is merit in considering an amendment to *Complete Communities* that would result in the removal of the 'General Manufacturing' designation and the addition of the 'New Communities' designation:

- **The removal of the 'General Manufacturing' designation for the subject lands (120 acres) does not have a material impact on the city's inventory of industrial lands.** According to the Employment Lands Strategy, there is a significant amount of land available for comprehensively planned greenfield and brownfield development in the area. Removal of the subject lands from the quadrant's inventory would not impede the demand for additional industrial development as there would continue to be an ongoing surplus of industrial land available within this area.

- **Re-designating the subject land for primarily residential development will provide additional housing options for Winnipeg's growing housing needs.** *Our Winnipeg* identifies a need to accommodate 180,000 additional residents by 2031.

- **The proposed amendment will allow for a diversity of affordable housing options in close proximity to employment lands.** Direction 2 of the 'Employment lands – Business Park and Institutional Campus Specific' section of *Complete Communities* seeks to *encourage the establishment of more employment lands close to and/or within residential areas.* Regionally, the subject property is located in close proximity to Inksbrook Industrial Park and 20,000 acres of future industrial land as part of the CentrePort Canada project.

- **Provides a reasonable transition between residential and industrial uses.** Re-designating the subject land for mostly residential development will provide a controlled and predictable transition from the neighbouring employment lands (Inksbrook Industrial Park, Brookside Business Park and CentrePort) to the surrounding residential communities (Inkster Gardens, Amber Trails, Mandalay West, the Maples and Garden City).

Compliance with *Our Winnipeg*

The proposed amendment is supported by the following objectives and policies of *Our Winnipeg:*

01-1 City Building:

- *…complete communities should provide a range of housing options to accommodate various incomes, household types, abilities and stages of life.*

01-1c Key Directions for Specific City Areas:

- *A key to making our city attractive and competitive will be to create 'complete communities' and to complete existing communities by enhancing existing infrastructure and assets to ensure that most amenities for daily living are universally accessible within walking distance.*
- *Enhance the quality, diversity, completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population.*

03-1 Opportunity (Direction 4):

- *Encourage new and infill development, as well as the redevelopment of existing properties to incorporate affordable housing that is integrated with market housing, that provides opportunities to reduce transportation costs and that allows people to live, work and play in the same neighbourhood.*

04-1 Housing (Direction 1):

- *To support diverse housing options in each neighbourhood or neighbourhood clusters throughout the City*
