**File DASZ 10/2013**

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

The Executive Policy Committee amended its recommendation of December 11, 2013, concurred in the recommendation of the Standing Policy Committee on Infrastructure Renewal and Public Works, as amended, and submitted the following to Council:

1. That the details of the draft Front Ending Agreement (Appendix "A") with Genstar Development Company for the construction of the Extension of Kildare Avenue West be received as information and the proposed terms be approved by Council.

2. That pursuant to the Council approved terms for the Development Agreement under File DASZ 10/2013, additional capital budget in the amount of $ 16,113 million be included in the 2015 budget process for inclusion in the 2020 Capital Forecast to facilitate the Extension of Kildare Avenue West. The $ 16,113 million is comprised of $10.8 million in construction cost (2013 dollars), $1.026 million in construction inflation, $0.469 million City overheads and $3.818 million in accrued interest.

3. That the Chief Financial Officer be authorized to determine the payback structure in order to maximize the value.

4. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

## RECOMMENDATIONS

1. That the details of the draft Front Ending Agreement (Appendix "A") with Genstar Development Company for the construction of the Extension of Kildare Avenue West be received as information and the proposed terms be approved by Council.

2. That pursuant to the Council approved terms for the Development Agreement under File DASZ 10/2013, additional capital budget in the amount of $21.572 million be included in the 2015 budget process for inclusion in the 2020 Capital Forecast to facilitate the Extension of Kildare Avenue West. The $21.572 million is comprised of $14.6 million in construction cost (2013 dollars), $1.387 million in construction inflation, $0.423 million City overheads and $5.162 million in accrued interest.

3. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

## REASON FOR THE REPORT

Pursuant to Section 53(1) of The City of Winnipeg Charter, Council approval for the funding of this project is required. The terms of the front ending agreement must also be approved by Council.

## IMPLICATIONS OF THE RECOMMENDATIONS

The Public Works Department is required to allocate capital funding for the extension of Kildare Avenue West pursuant to Council's approved terms for the proposed Development

Agreement under File DASZ 10/2013 that require the Developer to construct and front end finance the extension of Kildare Avenue West.

The Developer, Genstar Development Company, intends to finance (i.e. "front-end") the full cost of the works and, under the Front-Ending Agreement, the City will be obligated to pay Genstar the costs incurred to do the work plus interest.

## HISTORY

On July 17, 2013, Council concurred in the recommendation of the Standing Policy Committee on Property and Development and approved a Subdivision and Rezoning at the southeast corner of Ravelston Avenue West and Peguis Street under File DASZ 10/2013. Genstar proposes to develop 209 single family lots, one "RMF-L" Residential Multi-family site, four "RMF-M" residential Multi-family sites, one "RMU" Residential Mixed Use site, five blocks for duplex or townhouse development zoned "RMF-S" residential Multi-family district and two small commercial sites zoned "C2" Commercial Community. The development will be called "Devonshire Village". It is estimated that phase one of this government business partnership (i.e. joint venture) will generate approximately $6 million in revenue for the City of Winnipeg.

Council's approval of the Subdivision and Rezoning included the requirements for the Developer to enter into both a Zoning Agreement and Development Agreement with the City. The proposed Development Agreement included the following clauses added by the East Kildonan/Transcona Community Committee at its meeting on June 18, 2013, namely:

48. The Developer shall, at no expense to the City, construct a two lane concrete roadway extension of Kildare Avenue West from Plessis Road, westward through the lands formerly known as the Public Works Yards and on an alignment agreeable to the City, and up to the easterly limit of the planned area on the Ravelston right-a-way (DASZ 10/13) which will represent the southerly lanes of Ravelston.

50. The Developer shall enter into a Front Ending Agreement with the City of Winnipeg that will repay the developer for all costs associated with said works in the above two clauses, plus interest at a rate agreeable to the City, within five years of said construction work. The Front Ending Agreement shall be subject to said works being constructed and completed prior to the issuance of the 51st single family building permit in DASZ 10/13, and provide greater detail on all the terms and conditions of all the timing, scope, interest rate, repayment dates and terms to be mutually agreeable by the City and the Developer and live up to the clear intent of the East-Kildonan Transcona Community Committee and as determined by and to the satisfaction of the Director of Public Works.

As illustrated in Appendix "B", the proposed two-lane roadway will extend from the government business partnership lands (DASZ 10/2013) to the east, bisecting the former Public Works Yard located at 1500 Plessis (DASZ 39/2013) and ultimately connect to Plessis Road. The construction of the roadway will enhance access to Devonshire Village and Transcona West from the existing Transcona area. The roadway will also enable the redevelopment of the decommissioned Public Works Yard, identified as a Major Redevelopment Site in Our

Winnipeg, which will ultimately remediate the site while expanding the City of Winnipeg's tax base. When complete, the extension of Kildare Avenue West will alleviate traffic, in particular on Regent Avenue, and result in improved pedestrian and vehicular traffic flow in Transcona.

The Public Works Department has produced a high level cost estimate to construct an extension of Kildare Avenue through the decommissioned City of Winnipeg yards tying into Ravelston Avenue, west of the railway (see Appendix "B"). The estimated cost, in 2013 dollars, is $14,600,000. After including inflation of 9.5% to reflect the timing of the planned works (i.e. spring 2014 to spring/summer 2015), the estimated cost is $15,987,000. Total accrued interest to the assumed repayment date of April 1, 2020 of $5,162,000 brings the total estimated developer payback amount to $21,149,000 (see Table 1 below). The addition of City of Winnipeg internal charges (i.e. short-term financing overheads) of $423,000 results in a total estimated capital budget requirement in 2020 of $21,572,000.

**Assumptions**

1) Total Estimated Cost of Kildare Avenue Extension as per Public Works - Engineering Division 15,987,000

- First draw on loan amount assumed to occur on April 1, 2014 & be repaid to Genstar's lender on April 1, 2020.
- Second draw on loan amount assumed to occur on October 1, 2014 & be repaid to Genstar's lender on April 1, 2020.
- Third draw on loan amount assumed to occur on April 1, 2015 & be repaid to Genstar's lender on April 1, 2020.

| | |
|---|---|
| Balance Owing as at December 31, 2014 | 13,116,000 |
| Balance Owing as at December 31, 2015 | 17,106,000 |
| Balance Owing as at December 31, 2016 | 17,984,000 |
| Balance Owing as at December 31, 2017 | 18,904,000 |
| Balance Owing as at December 31, 2018 | 19,871,000 |
| Balance Owing as at December 31, 2019 | 20,888,000 |
| Balance Owing as at April 1, 2020 | 21,149,000 |

2) Estimated Interest Rate to be Charged on the Loan to Genstar 5.00%

- Interest assumed to be compounded monthly beginning in April 2014.
- Accrued interest assumed to be repaid to Genstar's lender on April 1, 2020.

3) Costs in 2014/15 include a 9.5% inflation factor on the costs projected in 2013 dollars.

The Public Works Department has advised that the roadway alignment as depicted in Appendix "B" will need to be modified which will result in a change to the size and shape of the

areas to the north and south of the proposed roadway. Further, the location and configuration of the proposed rail crossing will have to be approved by the railway authority.

**Additional Comments:** Capital expenditures consist of the estimated developer payback amount of $21.149 million (i.e. principal of $15.987 million + accrued interest of $5.162 million) + City overheads of $0.423 million. The latter amount represents 2% short-term financing charges and will be offset by recoveries in the current budget of the Corporate Finance Department. For the purposes of this analysis, it is assumed that financing for the capital budget will be external debt. Direct costs beginning in 2021 represent estimated debt and finance charges, to be included in the Public Works Department's operating budget, of $1.665 million/annum based on an assumed interest rate of 6% and a 30-year amortization period.

A review would be beneficial for developer payback agreements with respect to the timing of reporting of assets and liabilities as well as authorizations and financing for budget purposes.

## 1. DEFINITIONS

1.1. **"Agreement"** means this Front-Ending Agreement, including the Recitals and Schedules.

1.2. **"Bank"** means Canadian Western Bank or such other lending institution acceptable to the City and the Developer.

1.3. **"City"** means The City of Winnipeg.

1.4. **"City Solicitor"** means the individual appointed to the position of Director of Legal Services and City Solicitor for the City, from time to time, or the person designated by such individual to carry out the duties contained herein.

1.5. **"Consulting Engineer"** means an engineering consulting firm acceptable to the City and Developer.

1.6. **"Contractor"** means the construction contractor or contractors the Developer selects and engages to construct the Transportation Infrastructure.

1.7. **"Cost of Borrowing"** means the interest incurred by the Developer in borrowing funds from the Bank to cover the Costs in Place. This cost is to be calculated daily on the daily closing balance of the loan, at the Interest Rate.

1.8. **"Cost Schedule"** means the estimated Costs in Place, as shown on the attached **Schedule "A"** to this Agreement.

1.9. **"Costs in Place"** means the costs actually incurred by the Developer including cost overruns, to be jointly approved by the Developer and the City, in connection with the construction of the Transportation Infrastructure as certified for payment by the Consulting Engineer.

DRAFT

1.10. **"Developer"** means Genstar Development Partnership, managed by one of the partners namely Genstar Development Company, a corporation registered and carrying on business in the Province of Manitoba.

1.11. **"Developer Payments"** means the payment by the Developer of the invoices for Costs in Place and the cost of borrowing.

1.12. **"Director of Public Works"** means the individual appointed to the position of Director of Public Works for the City, from time to time, or the person designated by such individual to carry out the duties under this Agreement.

1.13. **"Interest Rate"** means a floating rate of interest equal to the following:

(i) If the prime lending rate the Bank charges its customers is four and a half percent (4.5%) or less, the prime lending rate the Bank charges its customers plus one half of one percent (0.5%);

(ii) if the prime lending rate the Bank charges its customers is between four and a half percent (4.5%) and five percent (5.0%), five percent (5.0%);

(iii) if the prime lending rate the Bank charges its customers is more than five percent (5.0%), the prime lending rate the Bank charges its customers.

For information, on December 2, 2013 the prime lending rate the Canadian Western Bank charged its customers was three percent (3.0%).

1.14. **"Plan of Subdivision"** means the Developer's proposed plan of subdivision under File DASZ 10/2013.

1.15. **"Transportation Infrastructure"** means the two lane roadway extension of Kildare Avenue West from Plessis Road, westward through the lands formerly known as the Public Works Yards and up to the easterly limit of the planned area of DASZ 10/2013 on the Ravelston right-of–way as generally illustrated in Schedule 'B" to this Agreement, Conceptual Plan of Transportation Infrastructure and including, but not necessarily limited to the following:

- 8.3m wide asphaltic concrete pavement between Plessis and the westerly project limit.
- Land Drainage Sewer along the entire length of the extended Kildare ROW
- Street lighting along the entire length of the extended Kildare Avenue ROW
- Modification to traffic signals at Plessis Road and Kildare Avenue West
- Railway crossing works at the extended Kildare Avenue and the Central Manitoba Railway rail line crossings
- Realignment of the existing Active Transportation (AT) path
- A 1.5 m sidewalk along the extended Kildare Avenue roadway

DRAFT

- Boulevard sodding and trees along the south side of the extended Kildare Avenue roadway
- Soil remediation works along the Kildare Avenue extension through the City of Winnipeg property
- Applicable Engineering Fees
- All other works related to the extension of Kildare Avenue.

## 2. OBLIGATIONS OF THE DEVELOPER

2.1 The City shall approve the engagement of the Consulting Engineer by the Developer for the design of the Transportation Infrastructure and administration of contracts between the Developer and the Contractor. Any changes to the scope of the work being undertaken by the Consulting Engineer and the corresponding change to their fees as it relates to the Transportation Infrastructure shall be jointly agreed upon in writing by the Developer and the City.

2.2. Once the design and the plans and specifications for the construction of the Transportation Infrastructure have been finalized by the Consulting Engineer and released for construction by the Director of Public Works, the Developer shall call for tenders for the work required to construct the Transportation Infrastructure.

2.3 All bids received by the Developer in response to the tender call shall be evaluated by the Consulting Engineer. The Developer shall send to the Director of Public Works a written recommendation of bids it wishes to accept for the work required to construct the Transportation Infrastructure.

2.4 Upon acceptance of the above-noted recommendation by the Director of Public Works, the Developer shall enter into a Construction Contract with such Contractor for the construction of the Transportation Infrastructure.

2.5 The Developer together with the Consulting Engineer shall ensure that the Transportation Infrastructure is constructed in accordance with the design and the plans and specifications prepared by the Consulting Engineer as submitted to the Director of Public Works.

2.6 The Developer shall front-end the cost of construction of the Transportation Infrastructure including any cost overruns as jointly agreed upon in writing by the Developer and the City. Payment of the invoices or progress payments for the cost of construction of the Transportation Infrastructure shall only be made by the Developer following receipt of the Consulting Engineer's written certification of the invoices or progress payments and written approval by the City.

2.7 The Developer's payment of all invoices and progress payments shall be made in accordance with the provisions of *The Builders' Liens Act*.

DRAFT

## 3 OBLIGATIONS AND ENTITLEMENTS OF THE CITY

3.1. The City agrees to reimburse the Developer for the roadway extension Developer Payments by no later than December 31, 2020. It is understood and agreed that the City may make payments prior to December 31, 2020, without penalty, upon providing to the Bank at least forty-eight (48) hours, notice which payments shall firstly be applied to accrued interest and then to principal if applicable.

## 4 LOAN AND ASSIGNMENT

4.1 The City acknowledges that the Developer intends to borrow funds in the approximate amount of $15,987,000.00 (amount represents $14.6 million estimated cost in 2013 dollars times an inflation factor of 9.5%) from the Bank to cover the cost of construction of the Transportation Infrastructure including any cost overruns jointly agreed to by the Developer and the City.

4.2 The City and the Developer agree that the interest rate to be charged on the loan from the Bank to cover the cost of construction of the Transportation Infrastructure including any cost overruns jointly agreed to by the Developer and the City, and the terms of repayment of the loan shall be at a rate and upon terms of repayment acceptable to the City and the Developer.

4.3 The City acknowledges that the Developer intends to transfer and assign to the Bank the Developer's right and entitlement to receive the Developer Payments from the City. The City hereby consents to any such assignments and agrees to honour same.
