Community Need Support

Lord Selkirk school catchment area serves a high needs community with diverse income and family situations. Our goal is to provide appropriate nutrition to our students so that they can have proper sustenance which has been positively correlated to higher academic achievement. In addition to our school programs our school is open during the summer where a number of programs are operated where the same nutritional requirements are needed and met. Our refrigerator ceased working in the early fall and we approached Councillor Steen to fund the acquisition of a commercial grade. Councillor Steen provided the funds out of his CRA fund so that we could immediately replace the old refrigerator with the understanding that we would apply at a later time under the CIGP program. Although our parent association, while active and involved, does not have the discretionary household income to provide the funding for the acquisition of a new properly sized refrigerator. We would respectfully request that the 50% contribution requirement to the project be waived.
