Recommendation(s):

1. That the proposed acquisition of the "subject property" shown on Misc. Plan No. 11214/2 be approved at a proposed purchase price of $55,000.00 and, and in accordance with the terms and conditions as specified on the attached Schedule "A".

REPORT SUMMARY

Key Issues:

- In a letter dated December 9, 2002, the registered owner offered the subject property at 157 Kenny Street for sale to the City at a proposed purchase price of $68,500.00.
- The City requires the subject property for the proposed 6-lane widening of St. Mary's Road between Vivian Avenue and the Norwood Bridge; i.e., the future property line passes through the existing structure at 157 Kenny Street.
- The widening of St. Mary's Road is not in the current Five-Year Capital Forecast. It is, however, identified in *Plan Winnipeg 2020 Vision* as a "Major Street Widening to 2020".
- At its meeting held on March 11, 2003, the Standing Policy Committee on Public Works considered the Public Works Department's report dated February 19, 2003 and authorized the Director of the Planning, Property and Development Department to negotiate for the acquisition of 157 Kenny Street.
- The City has already acquired several properties along St. Mary's Road for the proposed widening of St. Mary's Road. For example, the adjacent property at 177 St. Mary's Road was purchased in 2002.
- The Real Estate Division has completed its negotiations with the owner in respect of the proposed acquisition of the subject property and the results are recommended herein for approval.

REASON FOR THE REPORT:

The Real Estate Division of the Planning, Property and Development Department has completed its negotiations with the owner in respect of the proposed acquisition of the subject property by

the City. By this report, the Department is seeking the approval of Council to the proposed acquisition as negotiated.

HISTORY:

In a letter dated December 9, 2002, the registered owner offered to sell the subject property to the City at a proposed purchase price of $68,500.00.

At its meeting held on March 11, 2003, the Standing Policy Committee on Public Works ratified approval as to need for the property and funding requirements for its acquisition; and authorized the Director of the Planning, Property and Development Department to negotiate for the acquisition of the subject property.

Ensuing negotiations conducted by the Real Estate Division of the Planning, Property and Development Department have produced the owner's agreement to sell the subject property to the City. The particulars of the subject property and the negotiated settlement are as follows:

Location:	157 Kenny Street at St. Mary's Road
Legal Description:	Lot 5, Plan 4354 (as shown on Misc. Plan No. 11214/2, attached)
Registered Owner:	Glenn Owen Williams, 157 Kenny Street, Winnipeg, Manitoba, R2H 2E3
Zoning:	"C-1" Commercial District
Assessment:	Total Assmt: $79,500.00
Site Area:	±278.7 m2 (±3,000.4 square feet)
Property Description:	The property is improved with a 1905, 2 ½ storey, 143.54 m2 (1,545 square foot), 8 room residential building on full basement. The building is considered to be in fair condition for its age. There is also a single vehicle detached garage on site.

DISCUSSION:

The Real Estate Division has now successfully negotiated the acquisition of this property at a proposed purchase price of $55,000.00 and in accordance with the proposed terms and conditions as indicated on the attached Schedule "A".

The Real Estate Division considers the proposed acquisition of the subject property by the City in the amount of $55,000.00 and upon the proposed terms and conditions of purchase indicated in the attached Schedule "A", to be acceptable. The proposed purchase price is supported by an independent appraisal. The associated terms and conditions of acquisition are consistent with other prior acquisitions of a similar nature.

The Planning, Property and Development Department is supporting the acquisition of this property for the following reasons:

- This property is required for the proposed 6-lane widening of St. Mary's Road between Vivian Avenue and the Norwood Bridge.

- The City will be in possession of the subject property and will not have to concern itself either with potential purchasers acquiring the property for speculation purposes or with market conditions in future years which could potentially increase the acquisition cost.

- This proposed settlement at this time will also eliminate the need for this property to be expropriated by the City in the future, together with a risk of a litigated award, plus costs such as legal fees, statutory interest, etc., all of which would be entitlements to the property owner under The Expropriation Act.

Once purchased, the subject building will be formally evaluated by the Real Estate Division for possible placement on the Planning, Property and Development Department's property management program until such time as the property is required for the proposed widening of St. Mary's Road, or alternatively, for demolition of the building situated thereon.

Thus, the Public Works Department and Planning, Property and Development Department are both of the opinion that it would be in the best interests of the City to settle this matter on the basis of the proposal as specified herein.

All costs of acquisition, and of demolition (if considered necessary by the Department) are to be charged to the Land Acquisition for Future Transportation Purposes Account.

Additional Comments:

On February 11, 2003, the Public Works Department advised the Real Estate Division that funding in the amount of $90,000 has been committed for the aforementioned property acquisition from the Land Acquisition for Future Transportation Purposes Account. A current capital cost estimate based on the known proposed purchase price and attendant costs necessary to complete this purchase would be $55,400 plus an estimated demolition cost of $10,000 plus net GST and Finance and Administration Charges. The total estimated expenditure will, thus, total a sum of $70,057 which is the cost anticipated now that the property has been appraised and negotiations with the property owner completed, subject to an actual demolition cost being determined, if required at this time.
