REASON FOR THE REPORT:

In accordance with City Policy, the Standing Policy Committee on Property and Development shall finalize all sales, including terms and conditions, for which the Director of the Planning, Property and Development Department has no authority. By this Report, the Department is seeking the consideration of the Committee to proceed with a "public offering" of the property.

HISTORY:

On December 17, 1997 Council adopted the recommendation of the Standing Policy Committee on Property and Development declaring the "subject City property" as shown on Misc. Plan No. 9547/13 to be surplus to the City's requirements.

Prior to June 1999, the subject City property had been part of a larger site. On June 3, 1999 the Standing Policy Committee on Property and Development approved the sale of the easterly part (4.132 acres – Parcels C/F Plan 38447) to the Khartum Shrine Temple for the price of $100,000.00, with the Khartum Temple being responsible for the payment of outstanding local improvement charges, trunk service rate charges and the cost of services to be installed along Wilkes Avenue in the future. This sale has since "closed" and a meeting hall has been constructed on the site.

Details of the remaining surplus City-owned property is as follows:

Location:	North side of Wilkes Avenue between the Khartum Shrine Temple at 1155 Wilkes Avenue and The Golf Dome at 1205 Wilkes Avenue
Roll Number:	12-070060600
Assessed Value:	$101,000 (2003 assessment)
Legal Description:	Parcels A & B Plan 38447
Description:	Shown as "Subject City Property" on Misc. Plan No. 9547/13
Site Size:	Irregular 2.324 acres
Zoning:	M-2 Industrial District
Certificate of Title:	1725489

Previous Sale of the Subject Property

On June 19, 2002 Council adopted the May 27, 2002 recommendation of the Standing Policy Committee on Property and Development approving an exchange of lands with Glasgow Autobody in which the subject City property as shown on Misc. Plan No. 9547/13 was exchanged for property needed by the City at 421 Glasgow Ave.

On July 15, 2002 the City was advised that Glasgow Autobody subsequently acquired a property on McMillan Avenue and that they would not be proceeding with the land exchange.

DISCUSSION:

This site is difficult to deal with given its servicing complications.

Servicing Issues

a) The site is currently serviced with wastewater sewer and a watermain. There are outstanding local improvements as applicable to the wastewater sewer that need to be paid off.

b) The land drainage for the site is temporarily connected to the retention pond to the east. There is a requirement for the site land drainage to be connected to the land drainage system when it is extended from Kenaston Blvd. to the west. The timing of this is unknown at this time. The issue of recovery of oversizing sewer line costs will be dealt with at the time they are installed. The owner of this property will be required to pay a pro-rated share of this cost.

c) Wilkes Avenue paving renewal and improvements will be constructed in the future. The timing is unknown at this time. The owner of this property will be required to pay a pro-rated share of this cost.

d) There is a Trunk Service Rate (TSR) charge that needs to be applied to this site. As in the sale to the Khartum Shrine Temple, the Department is proposing that the TSR charges be paid up front as part of the initial purchase price.

The Department has now established terms and conditions for the sale of this site, which deals with the current and future servicing issues (please see Clause 12 of the attached Offer to Purchase). The price established for the site will include the payment of TSR charges up front. The Purchaser will be responsible for the payment of the existing wastewater sewer local improvements in the amount of $962.26 to be paid annually through the year 2015. On this basis, the proposed purchase price has been established at $82,500.00, with a purchaser being required to post a "letter of credit" for the future servicing costs ($ 90,000.00 based on 2002 construction costs) which includes a pro-rata share of the costs of oversizing the land drainage pipes to service the subject property as well as the costs of the future servicing improvements to be installed on Wilkes Avenue.

Except for the requirement for the "Letter of Credit" (which is a new requirement of the Land Development Branch for application in this instance), the proposed terms and conditions, including pricing, are consistent with the prior sale of the adjacent property to the Khartum Shrine Temple.

Proposed Terms and Conditions for the Sale of the Subject Property

The Planning, Property and Development Department is of the opinion, that given the substantial interest in this property, it would be appropriate to make this property available by means of a "public offering".

The Department proposes that the land be offered to the public at large by way of a Public Invitation for Offers.

The Department is attaching herein:

- a draft of the sample "Offer to Purchase" form that it intends on using for the sale of this property. The terms, which are generally consistent with similar agreements used by the City, require that the Purchaser be responsible for all costs related to development and servicing of the property (i.e. land drainage sewer oversizing, and Wilkes Avenue improvements consisting of concrete pavement, sidewalks, boulevard, ornamental lighting and land drainage laterals). The servicing and future servicing costs are in the range of $90,000.00 based on 2002 construction rates. These costs will need to be guaranteed with a letter of credit.
- a copy of the Misc. Plan No.9547/13.
- instructions to the prospective purchasers.

Payment of Real Estate Commissions

The Planning, Property and Development Department is recommending that commissions be paid to registered Real Estate Agents or Firms that submit an Offer to Purchase, which Offer is then accepted and ultimately closes.

For the information of the Committee, the City has adopted a practice of paying a commission in the sale of industrial, commercial, and investment properties. The commission rate payable would be in accordance with Policy as approved by Council on July 16, 1980, at 5% on the total sale price to $100,000.00 with the commission to be payable after the sale closes. The Department supports the participation of brokers in the selling process in order to maintain the cooperative working relationship that has been developed in recent years with the private sector brokers.

The Proposed Marketing Strategy and Sales Process

By this report the Real Estate Division is recommending that the authority be delegated to the Chief Administrative Officer to accept an Offer to Purchase that is received in accordance with the City's form and terms and conditions of sale, without variation, and where the offered price is not less that the proposed price. The Department anticipates that the CAO will then further delegate this authority to the Director of the Planning, Property and Development Department. In so doing, the processing of the sale will be expedited and will facilitate an early close of sale and transfer of land.

The Real Estate Division proposes that the property be offered for sale by way of a Public Invitation for Offers. This proposed marketing strategy to the general public would be comprehensive and include an informational package complete with an Offer to Purchase document that sets out the City's terms and conditions, as well as the price applicable.

Financial Administration and Proposed Pricing

The Department has established $82,500.00 (including Trunk Service Rate Charges) as the recommended price. The gross sale proceeds will be received by the Department and deposited in the Land Operating Reserve Account.

Financial Impact Statement Date: June 19, 2003

Proposed Marketing and Sale of Surplus City-owned Property on North Side of Wilkes Avenue East of Kenaston Boulvard

COMMENTS:

There are no financial implications arising out of the recommendations of this report. A future report dealing with a sale pursuant to the "public offering" process will advise as to the financial implications attributable to that particular transaction.
