RECOMMENDATIONS

1. That By-law No. 2/2014, a by-law to amend the *South St. Boniface Area Structure Plan* (By-law 158/2005), be approved for first reading by Council.
2. That the Riel Community Committee be directed to conduct a public hearing respecting the by-law.
3. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

The Sage Creek Development Corporation is requesting an amendment to the *South St. Boniface Area Structure Plan* (By-law No. 158/2005) that would eliminate one of the three school sites in the Plan area and relocate one of the remaining two. Although school site locations are shown in the *South St. Boniface Area Structure Plan* Land Use Concept Map, the decision to develop the school sites with schools ultimately rests with the School Division, which in this case is Louis Riel. The Louis Riel School Division has provided a letter confirming support of the changes proposed within the secondary plan amendment application (see Attachment "B"). Both the developer and School Division should consult with the South St. Boniface community prior to the plan amendment public hearing date.

The applicant (Sage Creek Development Corporation) has provided a revised Land Use Concept map (Attachment "A") to replace the Land Use Concept map in the Plan. The proposed Land Use Concept Map shows that the site in the northern portion of the plan area will remain in place, but the school site at the corner of Warde Avenue and Robert Bockstael Drive will be removed and the southernmost school site will be relocated to the corner of Warde Avenue and Des Hivernants Boulevard. There are no other changes proposed besides the number of

schools and locations. With the proposed changes, the Land Use Concept map would still comply with the existing school sites policies found in section 5.4 of the Plan.

The amendment application comes as a result of the proposed changes to the minimum land area requirements for school sites as required by the Province and the Public Schools Finance Board (PSFB). At the time Council adopted the Area Structure Plan (2005), the minimum acceptable land area requirements for K-8 sites were approximately 4-5 acres depending on the specific location of the site (i.e. whether or not a site was located next to a park where a joint use agreement could be formulated between the City and School Division). Through the proposed changes by the Province and PSFB, K-8 sites will now be required to be larger in area. The applicant notes that although the number of sites is being reduced, the actual acreage for the school sites will remain similar: 12 acres for the three sites under the previous concept and 11.5 acres for the two proposed sites.

This will be the second proposed amendment to the school sites within the plan area. However, the previous amendment occurred prior to changes being initiated by the Province with respect to school sites.

In accordance with subsection 234(3) of The City of Winnipeg Charter and the Development Procedures By-law, a by-law adopting or amending a secondary plan requires first reading by Council and then a public hearing prior to second and third reading by Council.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendation is concurred in, the Riel Community Committee will conduct a public hearing on the proposed secondary plan amendment.

HISTORY

- On November 23, 2005, Council passed By-law 158/2005, the *St. Boniface Area Structure Plan.*
- On July 12, 2010, Riel Community Committee concurred in the recommendation to approve the subdivision and rezoning of phase 5 (DASZ 12/2010) of the Sage Creek Neighbourhood Development, which included the first of three school sites.
- On December 15, 2010, Council approved application no. SPA 2/2010 and passed By-law 101/2010, which amended the locations of the school sites in the South St. Boniface Area Structure Plan (Secondary Plan). The original Land Use Concept Map showed two school sites in the northern portion of plan area and one in the south. After the amendment, two school sites were located in the south with one site in the northern portion of the plan.
