RECOMMENDATIONS

1. That the proposed street closing as shown on Misc. Plan No. 14604 be approved, subject to the approval of Option Two for DASZ 50/2013, and that the land be declared surplus to the City's needs.

2. That the Director of Legal Services and City Solicitor be instructed to prepare the necessary by-law for submission to Council to effect the street closing in accordance with Misc. Plan No. 14604, subject to the approval of the terms and conditions of the conveyance of the land by the Director of the Planning, Property and Development Department.

3. That the Proper Officers of the City be authorized to do all things necessary to effect the intent of the foregoing.

REASON FOR THE REPORT

All street closings require the consideration of the Community Committee.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no policy, regulatory, environmental, human resource or general implications associated with the recommendations.

All costs associated with the street closing are the responsibility of the applicant. There are no financial implications for the City of Winnipeg.

HISTORY

The Planning, Property and Development Department has received a request from Landmark Planning & Design Inc., representing Novamet Development Corporation, to close Van Roon Drive so identified on the attached copy of Misc. Plan No. 14604.

The subject closing is to be considered concurrently with DASZ 50/2013, an application to subdivide and rezone the adjoining property in order to accommodate a residential housing development within the Ridgewood Precinct Plan area. Two options for DASZ 50/2013 have been presented for consideration. Option 1 excludes the subject closing within the development while Option 2 includes the closing area. Sketches for both options appear in Appendix "B" of this report.

If Option 2 is approved, the portion of Van Roon Drive identified as Parcel "A" is to be incorporated into DASZ 50/2013. The balance of the street identified as Parcel "B" falls outside of the development and will be retained by Novamet as a remnant lot with frontage on Charleswood Road.

The subject right of way was opened as "Edward Street" by Plan No. 1644 and registered in the Winnipeg Land Titles Office in June of 1911. In January of 1974, the City of Winnipeg passed By-law No. 571/74 renaming the street to "Cardiff Avenue". In September of 1997, the northerly 1.38m of Parcel "B" was widened by Plan No. 35017. The City of Winnipeg subsequently passed By-law No. 7088/97 in September of 1997 renaming "Cardiff Avenue" to its present designation of "Van Roon Drive".

The street comprises a well wooded area containing numerous mature trees, bush and undergrowth. It serves no public transportation purpose.

APPENDIX "A"

Administrative Approval

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the road closing.

Administrative Comments

The Urban Forestry Branch has provided the following comments:

> The right of way in question is rated as Grade "B" Quality Habitat by the Naturalists Branch, and the Urban Forestry Branch strongly encourages a plan that preserves as much of the forest as possible and minimizes the impact of construction activity, including the forest edges. From previous correspondence for this proposed development there were two options presented. Option One would be much more desirable as it will only disturb a small portion of the northern section of forest instead of a development plan that will cut through the heart of a maturing oak population. If Option Two is what the Developer prefers, the Urban Forestry Branch would expect compensation for all trees lost in the right of way as follows:

Number of Oak trees between 5.0-17.4cm dbh - 283
Compensation required = 283 x 1 x $600.00 = $169,800.00

Number of Oak trees between 17.5-24.9cm dbh – 180
Compensation required = 180 x 2 x $600.00 = $216,000.00

Number of Oak trees between 25.0-32.4cm dbh – 21
Compensation required = 21 x 3 x $600.00 = $37,800.00

Number of Oak trees between 32.5-39.9cm dbh – 1
Compensation required = 1 x 4 x $600.00 = $2,400.00

Total compensation required if all trees are removed from the Van Roon Drive right of way:

$426,000.00

Easements

Manitoba Hydro has identified services within the closing area and will require easements for these existing facilities as well as future development. No permanent structures will be allowed within the easement areas.

Any removal or relocation of existing facilities as a result of the proposed street closing will be at the expense of the applicant.

Conveyance of Street for $1.00

The area of the streets and lanes being created by application DASZ 50/2013 exceeds the area of the street being closed. In accordance with City policy, the subject closing will be conveyed to the Developer for the nominal sum of $1.00.

Transfer of Jurisdiction Over Public Rights-of-Way

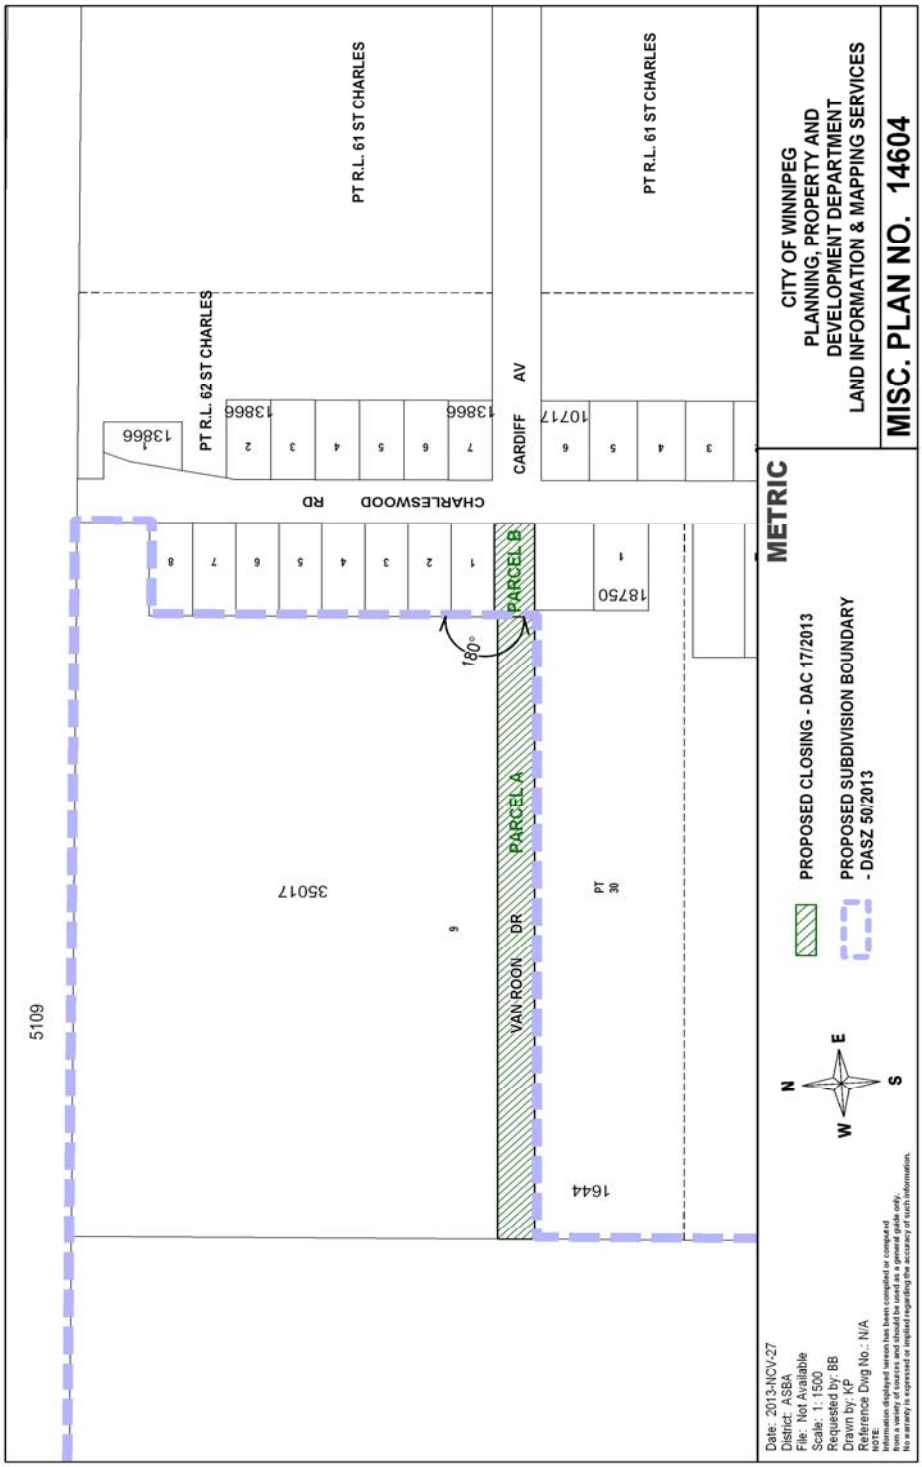

The street must be legally closed before it may be conveyed. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right of way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.
